VOIP

Albano: Focuses on VOIP telecommunications services and SIP-based solutions, offering fiber optic connectivity products for efficient communication networks. Asparag: Offers reliable fiber optic internet services, including high-performance connectors and infrastructure for gaming, streaming, and business applications. INFO-Telecom ICS: Provides advanced telecommunications solutions, including fiber optic infrastructure and connectors, emphasizing innovative and efficient network deployment.

Electron Albania: Supplies a wide range of fiber optic accessories, including optical splitters, SFP modules, LC, SC, and APC connectors, as well as fiber storage and closure solutions for single-mode networks.

Additional Notes

Albania imports a significant portion of its fiber optic products from countries like Turkey, Ukraine, and India, which may supplement local suppliers for specialized connectors or high-precision components. The Albanian market features both local companies and international distributors, providing opportunities for sourcing a variety of fiber optic connectors and related equipment. These companies collectively cover fiber optic connectors, cables, splitters, SFP modules, and installation services, making them suitable for businesses seeking comprehensive fiber optic solutions in Albania.
