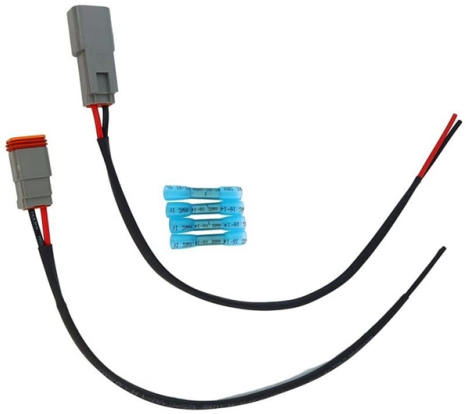
Oman Cable Tray Custom Manufacturer



Overview

Being one of the trusted Galvanized Cable Tray Exporters and Suppliers in Oman, we promise you the timely delivery and after-sale support.

Key Takeaways

Oman has a range of reputable cable tray manufacturers and suppliers offering FRP, GI, SS, aluminum, ladder, perforated, and wire mesh cable trays for industrial, commercial, and residential projects.

Leading Cable Tray Suppliers

Albustan Technical Supplies LL

C provides a complete range of cable management systems in Oman, including cable trays, trunking, ladders, conduits, and raceways. Their products are made from high-quality materials such as steel, aluminum, PVC, and FRP, ensuring durability, corrosion resistance, and compliance with international safety standards. They serve industries like construction, power, oil & gas, and infrastructure, offering solutions for both heavy-duty and general-purpose applications.

S

V Composites & Engineering Pvt Ltd specializes in FRP cable trays in Oman. Their trays are designed for high load-carrying capacity, fire and corrosion resistance, and long-life performance in harsh environments such as coastal areas, chemical industries, and high-temperature applications. They offer a variety of configurations, sizes, and capacities, including FRP channel-type trays for light instrumentation cables and power cables.

GULF GRATIN

G supplies a wide range of cable trays including FRP/GRP, GI, SS, and aluminum. Their ladder-type cable trays are prefabricated with side rails and rungs, providing maximum ventilation and load support. These systems are suitable for oil & gas, power, industrial, commercial, and residential projects, with all necessary fittings available for easy installation.

Types of Cable Trays Available in Oman

Ladder Cable Trays: Ideal for heavy-duty cables, providing ventilation and easy maintenance. Perforated Cable Trays: Suitable for medium loads, allowing airflow and heat dissipation. Wire Mesh Cable Trays: Flexible and lightweight, often used for data and instrumentation cables.

Solid Bottom Cable Trays: Provide full protection for sensitive cables. FRP/GRP Cable Trays: Corrosion-resistant, lightweight, and suitable for harsh environments. Aluminum and Stainless Steel Trays: Durable and suitable for industrial and outdoor applications.

Applications

Cable trays in Oman are widely used in industrial plants, power projects, oil & gas facilities, commercial buildings, and residential complexes. They ensure organized, safe, and efficient routing of electrical cables while protecting against mechanical damage, moisture, and corrosion. For sourcing, you can explore suppliers like Albustan Technical Supplies, SV Composites, and GULF GRATING, which provide both standard and customized cable tray solutions to meet project-specific requirements.
