1200mm Deep-landed price for fiber-reinforced spiral tubing

Overview

1200mm Carbon Fiber Tube Discover high-quality 1200mm carbon fiber tubes, suitable for large diameter applications. Available in bulk at competitive prices.

Key Takeaways

The deep-landed price for 1200mm fiber-reinforced spiral tubing typically ranges from $0. 14 per square meter for HDPE-based large-diameter pipes to around $35 per piece for high-strength carbon fiber composite tubes, depending on material, supplier, and order volume. Price OverviewFRP/GRP Fiber-Reinforced Pipes: 1200mm diameter GRP pipes are widely used in water supply, sewage, chemical, and petroleum industries.

They offer high strength, corrosion resistance, smooth internal surfaces, and long service life. While exact prices depend on specifications and shipping, suppliers emphasize low comprehensive cost and bulk availability, with fast delivery options. Spiral Tubes: Spiral fiber-reinforced tubes, including HDPE and reinforced coil hoses, are priced based on material, diameter, wall thickness, and order volume.

For large-scale infrastructure projects, prices can be as low as $0. 14 per square meter for HDPE spiral tubes, with economies of scale reducing per-unit cost for orders exceeding 1000 square meters. Carbon Fiber Composite Tubes: High-strength 1200mm carbon fiber tubes, suitable for load-bearing applications, are priced around $35 per piece.

These tubes offer superior tensile strength, corrosion resistance, and lightweight durability, making them ideal for specialized industrial or structural applications.

Factors Affecting Deep-

Landed Price

Material Type: FRP/GRP, HDPE, or carbon fiber composites have different base costs. Carbon fiber is significantly more expensive than standard FRP or HDPE. Order Volume: Bulk orders reduce per-unit cost due to economies of scale.

Shipping and Import Duties: Logistics, customs, and taxes can add 15–30% to the landed cost. Supplier Type: Direct manufacturers often offer better pricing and quality control compared to traders. Customization: Wall thickness, reinforcement layers, and surface finish can influence the final price.

Procurement Tips

Request material test reports and certifications (ASTM, ISO) to ensure compliance. Negotiate bulk discount tiers and consider minimum order quantities to optimize cost. Factor in installation and maintenance costs for total cost of ownership.

For urgent projects, confirm stock availability and delivery timelines with suppliers. By considering these factors, you can estimate a deep-landed price range of $0. 14 per square meter for standard HDPE spiral tubes up to $35 per piece for high-performance carbon fiber tubes, with final costs depending on material, volume, and shipping logistics.

Article Content

1200mm Carbon Fiber Tube

Discover high-quality 1200mm carbon fiber tubes, suitable for large diameter applications. Available in bulk at competitive prices, starting from $5 per unit with a minimum order of

1200mm carbon fiber tubing

Discover high-quality 1200mm carbon fiber tubing with superior purity and reliability. Ideal for industrial applications, enhancing efficiency and performance.

Carbon Fiber Tubes

Unrivalled range of high quality carbon fiber tubes, available to buy online from the experts.

Spiral Tube Price 2026: Best Deals

Selecting the right spiral tube involves more than just the initial unit cost. A strategic evaluation of technical specs, supplier reliability, and total cost of ownership is essential for

High Strength GRP Fiber Glass Reinforced Pipe Diameter 1200mm

High Strength GRP Fiber Glass Reinforced Pipe Diameter 1200mm, Find Details and Price about FRP Pipe GRP Pipe from High Strength GRP Fiber Glass Reinforced Pipe Diameter 1200mm - Hengshui

Custom Carbon Fiber Tubing

A custom-fabricated dark carbon fiber composite tube, featuring precision cut-outs and pre-drilled holes. Ideal for lightweight structural or

Spiral Tubing | McMaster-Carr

Choose from our selection of spiral tubing, including spiral sleeving, chemical-resistant spiral sleeving, and more. Same and Next Day Delivery.

Carbon Fiber Tubes

We are specialized in the processing of carbon fiber, combined with epoxy resin. The lightweight products of CarbonWebshop are extremely suitable for large mechanical loads due to their strength

High-Performance Composite Tubes & Rods | ACP

Explore ACP''s lightweight, high-strength composite tubes and rods in carbon fiber, fiberglass, and Kevlar®. Superior alternatives to metal with custom sizing available.

Carbon Fiber Tubing | McMaster-Carr

Choose from our selection of carbon fiber tubing, including over 55,500 products in a wide range of styles and sizes. Same and Next Day Delivery.

1200mm HDPE Pipe Large Diameter Steel Reinforced

1200mm HDPE Pipe Large Diameter Steel Reinforced Polyethylene Spiral Corrugated Pipe, Find Details and Price about Hdpe Pipe Drainage from

DARIT PVC Fiber Reinforced Hose Pipe

DARIT PVC Fiber Reinforced Hose Pipe- Yellow (1"inch 25.4mm X 50M) “Heavy Duty Flexible” Light Weight Spiral Mesh Textile for Industrial Agriculture Lawn Garden Water Irrigation Hose Tubing Roll

Spiral Reinforced Tubing

New England Tubing specializes in spiral reinforced tubing, typically used to improve hoop (crush) strength, add kink resistance, and change flex characteristics of

Metal Reinforced HDPE Spirally Corrugated Pipe Mrp
