165 Bridge Erection Machine

Overview

PJ165-type bridge-erecting machine mainly comprised by the host,auxiliary equipment,flip gantry,etc,mainly used in erecting the new and the old line upgrade of 200kilometers per hour passenger line 32m T bridge (general-purpose bridge2201,special bridge2101)and railway. PJ165-type bridge-erecting machine mainly comprised by the host,auxiliary equipment,flip gantry,etc,mainly used in erecting the new and the old line upgrade of 200kilometers per hour passenger line 32m T bridge (general-purpose bridge2201,special bridge2101)and railway. Recently, China's first 165-ton Qinghai-Tibet railway special-purpose flatbed crane was successfully developed at the China North Car Group Lanzhou Locomotive Works. The Qinghai-Tibet Railway 165-ton special bridge crane is the key bridging equipment tailored for the construction of the railway. TJ165 Bridge Erection Machine (discrete type) breaks through the restriction of cross-track transportation because it can be transported by highway or conventional railway. TJ165 Bridge Erection Machine Address: Huaxi Live Block C, Fuxing Rd No. 69, Haidian District, Beijing, P. Low Temperature Air Transportion Equipment, Petroleum Oilfield Equipment, CNG Skid Tube, Gas Turbine, Construction Machinery, Petroleum Equipment, Steam Turbine, Gas Generator, Petroleum Cementing Unit, Petroleum Coiled Tubing Unit Basic Info.

Article Content

China''s first 165-ton special plane crane for bridge erecting machine ...

The Qinghai-Tibet Railway 165-ton special bridge crane is the key bridging equipment tailored for the construction of the railway passenger dedicated line in China.

TJ165 Bridge Erection Machine

TJ165 Bridge Erection Machine (discrete type) breaks through the restriction of cross-track transportation because it can be transported by highway or conventional railway.

Tj165 Railway Bridge Erecting Machine with Nj3, Nj4

It can meet the erection requirements of the 2201 T-shaped bridge, and can erect other domestic railway concrete bridges, and meet the

PJ165-type bridge-erecting machine-Railway Engineering Machinery ...

PJ165-type bridge-erecting machine mainly comprised by the host,auxiliary equipment,flip gantry,etc,mainly used in erecting the new and the old line upgrade of 200kilometers per hour

Bridge erection machine

Types of Bridge Erection Machines A bridge erection machine is specialized construction equipment designed for the precise and efficient assembly of bridge structures. These machines are

BRIDGE ERECTION MACHINES

Several bridge erection machines collapsed in the years, with fatalities and huge delays in the project schedule. A level of technical culture adequate to the complexity of mechanized bridge construction

Design and development of bridge erecting machine with small curve ...

Starting from the working principle, existing problems, and causes of traditional bridge building machines, this article analyzes the key structure of the bridge building machine and innovatively

An Integrated Erection Method for Segmental Assembled Bridge

In view of the substantial existence of con-dition limitations of urban bridge construction and intense demands of integrated bridge construction, in the following parts of this paper, we propose a

CN202969275U

© 2026 METRA FIBER MARKET - All rights reserved

The utility model belongs to the field of bridge erection and particularly relates to a bridge erection machine for all-condition transportation and erection of 450t double-track parallel box girders of high

World''s First 1,000-Ton Transport-Erect Machine Completes Heavy

As the world''s first transport-erect machine that can handle a 1,000-ton box girder, Kunlun is a result of the rapid development of China''s high-speed railway bridge''s girder erection

Bridge Erecting Machine

Bridge ereating machine is applied to bridge and railway construction for heavy duty lifting. Its main function is to delivery prefabricated beam. The cranes can be used not only in plain construction, but

Design and development of bridge erecting machine with small curve ...

Abstract and Figures As a key equipment in highway and railway construction, bridge erecting machines directly affect the feasibility, progress, and quality of project implementation.

Bridge Erection Machines | PDF | Truss | Crane (Machine)

Bridge construction is moving towards mechanization to reduce costs and improve quality. This relies on complex bridge erection machines that must handle heavy loads safely while being as lightweight as

Pj165 Bridge Erecting Machine

Pj165 Bridge Erecting Machine, Find Details and Price about Water and Foam Tower Fire Truck Aerial Platform Fire Truck from Pj165 Bridge Erecting Machine - SAINTWAH INC.

Bridge Girder Erection Machine

This Bridge Girder Erection Machine is composed of main beam, upper trolley, front legs, hind legs, middle supports, etc. Control part

Bridge Erection Machine,Railway Construction (CRCC)

A bridge erection machine is a large-scale lifting and transportation equipment used for installing precast bridge girders in bridge construction, primarily in railway,

An Integrated Erection Method for Segmental Assembled Bridge

Segmental assembled bridge erection has become the researching hotspot for constructors as demands of large interchange projects increase in recent years. In this paper, we
