

24-port high-speed network patch panel

Overview

This 24-port universal 568A/B Category 6 rack mount patch panel is designed to take up a single rack space (1U), making it a compact and efficient solution for your network needs. The patch panel performance exceeds the TIA Category 6 Patch Panel Standards and supports data rates up to 10Gbps. Get reliable 24-port patch panels for voice, data, and video connections. Discover UL-listed options suitable for commercial and professional environments. Ideal for data centers, server rooms, and structured cabling systems. It features gold-plated contacts for high-speed network performance. Elevate your network with this 1U 24-port Cat6 patch panel, designed for rapid data transfer rates up to 10Gbps. Modular 6-Port Panels - Faster Setup. Each section of 6 ports is fully removable, allowing you to work on just one part of the panel. The patch panel socket works effectively with a well-organized layout.
