300-circuit distribution box panel

Overview

The Matrix 300 Series breaker panel is ideal for distribution from bulk-power rectifiers and point of use DC power systems with battery trays for battery backup, enterprise applications, and cabinet systems. A 300-amp 3-phase panel can help users cope with considerable electrical loads and, at the same time, distribute power efficiently and accurately. Such panels are classified into several types, depending on the intended purpose and application. A main breaker panel is. When you're looking for a custom Panelboard, we've got you covered. We can supply all four major manufacturers — Square D, Siemens, Eaton, and General Electric (GE). Once you give us a call with the specifications you need, our team will review your requirements and check our inventory to find the. NQ Panelboards are versatile panelboards that feature a wide selection of bolt-on and plug-on branch circuit breakers, integral main circuit breakers, branch mounted SPDs, and a wide variety of ready to install accessory kits. This 300-amp unit provides three-phase 208 V AC Delta via a main circuit breaker panel.

300 Amp 3 Phase Panel

A sub-panel in a three-phase system, especially in a 300-amp configuration, can distribute power to specific areas with high electrical needs, such as machine shops, HVAC systems, or large

QONQ42MS300

NQ Panelboards are versatile panelboards that feature a wide selection of bolt-on and plug-on branch circuit breakers, integral main circuit breakers, branch

Matrix 300 Series

The Matrix 300 Series breaker panel is ideal for distribution from bulk-power rectifiers and point of use DC power systems with battery trays for battery backup, enterprise applications, and cabinet systems.

300A and 400A Meter Main Breaker Box

These higher-amperage Meter-Combination Electrical Panels are engineered to provide increased power and flexibility. Each unit comes with a factory-installed main breaker, available in either 200A

Power Distribution Panel

The MPD-EB44-TB.300AB-DT0-10.T08-M1 from Larson Electronics is a Power Distribution Panel that is designed for reliable, safe, and convenient power

300 A Switchboard w/ 300 A Main Circuit Breaker

The MPD-MDS-CB-208Y.120-3P-300A-N12-M1 from Larson Electronics is a Switchboard with Main Circuit Breaker for power distribution systems. This 300-amp rated power distribution unit is

300 Amp, 3 Pole, Panel Mount Molded Case Circuit

Electronic tipping mechanisms provide overload and short-circuit protection with enhanced coordination capabilities and can include integral ground-fault detection.

What You Need for a 300 Amp Service Panel

A 300-amp electrical service panel acts as the central distribution point for all electricity entering a home or building. This high-capacity upgrade manages the flow of power from the utility

Panelboard | Electrical Distribution Panel | PowRLine 3a

© 2026 METRA FIBER MARKET - All rights reserved

Eaton''s Pow-R-Line 3a panelboards provide electric power distribution with integrated breakers, metering and surge protection. Designed to meet UL67

How to determine your panel size

Your home gets its electrical service from the electric grid, and distributes it to the individual circuits and wall outlets in your home through your home''s electrical

Distribution board

A distribution board (also known as panelboard, circuit breaker panel, breaker panel, circuit breaker, electric panel, fuse box or DB box) is a component of an electricity supply system that divides an

Breaker Boxes for Electrical Panel Systems | Lowe''s

Breaker boxes house circuit breakers for system protection. View products for reliable residential and light commercial power distribution needs.
