

## 3050 distribution box

### Overview

The Metway TerminalLED S 3050 allows series-connected LEDs to be wired up quickly and easily, using standard 2-core cable. The innovative Y-distribution box allows the power from a single constant-current LED driver to be easily shared by many LEDs, automatically connecting them in. Deliveries within Germany take 2-3 days beginning after receipt of payment, for deliveries to invoice beginning with the shipment, for deliveries to cash on delivery beginning with receipt of order. Payments and incoming orders beyond our business hours let the delivery time begin with the next.

terminalLED® S 3050 - Adels-Contact Seite 1 von 1 LED Distribution Box

terminalLED® terminalLED® S 3050 - triple distribution box for LED spots in series connections Technical data Connection IDC (insulation displacement connector) 3 x 2 clamping units 0. The S.
