

Armenian Cable Tray Specifications

Overview

We offer Cable Tray in Armenia in different specifications at competitive market prices. Our range is customized and passes stringent quality tests, before reaching the market.

Key Takeaways

Armenia offers a wide range of cable tray models including ladder, perforated, PVC, and metal trays, suitable for industrial, commercial, and structured cabling applications. Types of Cable Trays in Armenia1.

Ladder Cable Trays

Constructed from metal or aluminum, providing high strength and durability. Ideal for heavy-duty industrial applications and long cable runs. Open design allows ventilation and heat dissipation, reducing cable overheating.

Available in galvanized, stainless steel, or powder-coated finishes for corrosion resistance. 2.

Perforated Cable Trays

Made from metal or PVC, featuring perforations for airflow and drainage. Suitable for medium-load applications and environments requiring dust or moisture control. Can be customized in widths, lengths, and hole patterns to meet specific project requirements.

3.

PVC Cable Trays

Lightweight and non-conductive, ideal for low-voltage or sensitive electronic installations. Resistant to corrosion and chemical exposure, making them suitable for industrial and outdoor use. Offered in various brands like DECODUCT and EDISON, with a wide range of fittings and accessories.

4.

Metal Cable Trays

Includes steel, stainless steel, and aluminum trays. Designed for high-load applications, often used in power plants, factories, and commercial buildings. Can be ladder, perforated, or solid-bottom depending on installation needs.

Specifications and Features

Load Capacity: Varies by material and design; ladder trays support heavier cables, while PVC trays are for lighter loads. **Sizes:** Widths typically range from 50 mm to 600 mm, with lengths of 2–3 meters per section. **Customization:** Trays can be cut, bent, or shaped to fit specific layouts.

Compliance: Many suppliers provide ISO-certified products and ensure adherence to industry standards. **Accessories:** Include couplers, bends, tees, reducers, and supports for complete cable management systems. **Leading Suppliers in Armenia]**.

N.-J. S.

CJS

C: Offers PVC and metal cable trays, ladder trays, and accessories, representing brands like INTERPLAST and KIRAC METAL. **Jeetmull Jaichandlall (P) Ltd.:** Provides customizable ladder and perforated trays, with modern manufacturing facilities ensuring high-quality finishes. **Datacom:** Specializes in welded steel cable trays for structured cabling systems, including grounding and bonding for telecommunication networks.

Applications

Industrial: Factories, power plants, and heavy machinery installations. **Commercial:** Office buildings, data centers, and retail complexes. **Telecommunications:** Structured cabling systems, fiber optics, and LAN networks.

Special Environments: Corrosive or outdoor areas using PVC or stainless steel trays. Armenian cable trays are versatile, with options for heavy-duty, medium, and light applications, and are supported by suppliers offering customization, certification, and installation services to meet diverse project requirements.
