Brazilian trough-type cable tray supplier information

Overview

Electrical Cable Tray In BrazilWe, one of the top Electrical Cable Tray Manufacturers in Brazil, offer a wide variety of cable trays in various materials (.

Key Takeaways

Top cable tray manufacturers in Brazil include Eletropoll, Brilltech Engineers, Eletro MW, Salf, and Cable House, offering a wide range of high-quality trays, materials, and installation support.

Key Manufacturers and Offerings

Eletropoll Eletropoll provides electrical ducts, profiles, cable trays, accessories, fasteners, and busbars. Their tray unit is ISO 9001 certified and features hot-dip galvanization for enhanced durability and corrosion resistance. They offer structural gutters with 360º ferrules for superior mechanical performance and Quick Joint systems that reduce installation time by up to 85%.

Brilltech Engineers Brilltech Engineers manufactures durable cable trays in galvanized steel, stainless steel, and fiberglass. Their trays are designed for optimal cable protection, airflow, and space efficiency. They provide perforated trays to prevent overheating and offer professional support for product selection, system design, and installation.

Eletro MW Eletro M

W supplies a wide variety of cable trays, profiles, ducts, and galvanized conduits. They maintain stock for quick delivery and provide technical support to ensure safe and efficient electrical installations. Salf Salf specializes in carbon steel hot-dip galvanized trays (GF), electrolytic galvanized trays (GE), pre-galvanized steel (PZ), stainless steel (304 and 316), aluminum alloys, and electrostatically painted trays.

Their products are suitable for industrial, chemical, marine, and food & beverage applications, offering high corrosion resistance and compliance with Brazilian standards like NBR 6323 and NBR 10476/88. Cable House Cable House, established in 1983, manufactures and supplies cable trays, hose clamps, crimping tools, and industrial connectors. They provide customized solutions with high durability and reliable performance, serving both national and international markets.

Materials and Standards

Galvanized Steel: Hot-dip or electrolytic for corrosion resistanceStainless Steel: Grades 304 and 316 for chemical, oil, and food industriesAluminum Alloys: For lightweight and corrosion-resistant applicationsFiberglass: Non-conductive and suitable for harsh environmentsElectrostatic Painting: Durable coating for aesthetic and protective purposesApplicationsThese manufacturers cater to industrial, commercial, and residential projects, including high-corrosion environments, chemical plants, oil & gas facilities, marine installations, and food & beverage industries. Their products ensure cable protection, organized routing, improved airflow, and compliance with safety standards.

Conclusion

For Brazilian projects requiring cable trays, Eletropoll, Brilltech Engineers, Eletro MW, Salf, and Cable House are reliable options. They offer a combination of high-quality materials, certified manufacturing processes, technical support, and customizable solutions, making them suitable for diverse electrical infrastructure needs.
