Cable Tray Spot Welding Machine Model

Overview

Featuring automatic welding, a user-friendly interface, and durable components, this machine is ideal for manufacturing heavy-duty cable trays used in construction, electrical, and telecommunications projects.

Key Takeaways

Cable tray spot welding machines are specialized industrial equipment designed for high-speed, precise welding of cable trays, available in models such as DAPU DP-FP-1000A+, RKM-FP-1000A+, and other European-style automated systems. Key Models and Features1.

DAP

U DP-FP-1000A+Designed for small- to medium-sized cable tray mesh production. Pneumatic welding system ensures high-quality, durable mesh. Suitable for infrastructure projects including construction sites, data centers, hospitals, airports, and subway tunnels.

Customizable according to wire diameter, mesh width, and production requirements. Uses advanced electronic components from Siemens, Schneider, and Panasonic for precise control and automation. 2.

RKM-FP-1000A+Employs European welding technology with foreign brand equipment. Maximum welding speed of 120 times per minute. Servo motor and planetary reducer control mesh pulling with high precision.

Automatic clamping and cross-wire feeding systems for consistent mesh quality. PLC-controlled production line for easy operation and reduced labor costs. 3.

General Industrial Cable Tray Spot Welding MachinesFeature automatic welding, user-friendly interfaces, and durable construction. Wire feeding systems include longitudinal and cross-wire feeding with European design. Mesh pulling systems with J&T brand racks from Taiwan for accurate, high-speed operation.

Suitable for heavy-duty cable trays used in construction, electrical, and telecommunications projects. Customizable settings for production needs, with online and offline installation guidance available.

Applications

Manufacturing ladder-type or mesh cable trays for industrial and commercial projects. Widely used in electrical infrastructure, data centers, factories, hospitals, airports, and shopping malls. Supports high-volume production with consistent quality and reduced labor requirements.

Additional Considerations

Machines often include servo-controlled mesh transport systems and pneumatic cylinders for precise wire placement. Maintenance involves regular inspections and adherence to manufacturer guidelines. Many manufacturers offer customization, installation support, and training for operators to ensure optimal performance.

These models provide a range of options depending on production scale, automation level, and specific project requirements, making them suitable for both small workshops and large industrial facilities.

Article Content

Industrial Cable Tray Spot Welding Machine for Ladder Tray Production

Featuring automatic welding, a user-friendly interface, and durable components, this machine is ideal for manufacturing heavy-duty cable trays used in construction, electrical, and telecommunications projects.

Cable Tray Spot Welding Machine for Perforated Tray and Ladder Tray

Featuring automatic welding, a user-friendly interface, and durable components, this machine is ideal for manufacturing heavy-duty cable trays used in construction, electrical, and telecommunications projects.

Hwashi Wire Mesh Cantilever Type Spot Welding

This cantilever type spot welding machine adopts 6 welding positions and automatic feeding system. The operator only needs to put the material onto

Cable Tray Mesh Welding Machine

© 2026 METRA FIBER MARKET - All rights reserved

Developed by DAPU engineers in collaboration with European designers, this system is stable, durable, and highly efficient. In addition, DAPU provides a full range of cable tray mesh production machines,

Cable Tray Mesh Welding Machine (RKM-FP-1000A+) | RKM Machinery

The cable tray mesh machine uses a Servo motor and a planetary reducer to control mesh pulling with precise and small errors. The

Cable Tray Mesh Welding Machines

Clifford introduces their state of the art fully automatic Cable tray welder. The line is capable of welding all three common cable trays, such as Lapp welded, T

High-Performance Cable Tray Mesh welding machine

From straightening to welding and cutting, the entire process is automated, reducing labor costs and increasing production consistency. Whether you''re producing

Cable Tray Mesh Welding Machine

This machine is specifically designed for producing cable tray mesh, a metal mesh commonly used for supporting and managing cables in various infrastructure projects. It is ideal for manufacturing mesh

How to build Cable Tray | Wire Mesh Cable Tray Welding Machine

In this video, I will show how to build cable tray wire mesh with a wire mesh welding machine. ---RKM MachineryDo you know how many steps are needed to make ...

Cable Tray Spot welding machine and mig welding

Cable Tray Spot welding machine and mig welding Email: sales@hwashi Whatsapp: +86186 8038 9568 Wechat: willsteed Contats: Brian Chan Company: Guangdong Hwashi Technology Inc. Hwashi, the ...

Cable Tray Welding Machine | Hebei DAPU Machinery Co., Ltd

Our Cable Tray Welding Machine is a pneumatic model that incorporates European design technology. It is capable of welding two meshes simultaneously, with a maximum working speed of 120 times per

Industrial Cable Tray Spot Welding Equipment for Large Tray Panels

The Cable Tray Welding Machine is an advanced piece of industrial equipment designed for the efficient and precise welding of cable trays. Featuring automatic welding, a user-friendly interface, and

Basket Cable Tray Machine Metal Mesh Welding Machine

© 2026 METRA FIBER MARKET - All rights reserved

Basket Cable Tray Machine Metal Mesh Welding Machine, Find Details and Price about Spot Welding Machine and Wire Mesh Spot Welding Machine from Ningbo Xinzhou Welding Equipment Co., Ltd.

Industrial Cable Tray Spot Welding Machine for Ladder Tray Production

The Cable Tray Welding Machine is an advanced piece of industrial equipment designed for the efficient and precise welding of cable trays. Featuring automatic welding, a user-friendly interface, and

Cable Tray Automatic Welding Machine Ladder Type Cable Tray spot ...

Guangdong Hwashi Technology Inc. is a professional resistance welding machine manufacturer with more than 25 years'' experience. The products include a full range of resistance

Fully Automatic Cable Tray Spot Welding Machine for Industrial Use

Line wire space:50-300mm Allow four 25mm;Cross wire space:12.5-300mm;Mesh width:Max.1000mm;Mesh length:Max.3m;Welding points:20pcs;Air cylinder:10pcs;Welding

Cable Tray Welded Wire Mesh Welding, Basket cable making machine

High quality Cable Tray Welded Wire Mesh Welding, Basket cable making machine from China, China''s leading product market wire welding machinery product, with strict quality control wire welding

High Speed Cable Tray Making Machine, Capable of Producing Cable Trays ...

Fully automatic welding machine (double-sided servo trimming, peeling, hairless cutting machine), bottom net automatic welding equipment (automatic bending, stacking), K-net welding
