Cable tray color and model

Overview

Solved: Cable Tray Colors Is there a way that I can change the colors of 3 different cable trays to 3 different colors that will still display when I expor.

Key Takeaways

Cable trays are available in multiple types, materials, and finishes, with common colors including gray, black, and powder-coated options, across ladder, perforated, solid-bottom, wire mesh, and channel models.

Cable Tray Types and Models

Ladder Cable Tray

Structure: Two side rails with rungs connecting them. Applications: Heavy power cables, long runs, high ventilation needs. Common Models: Hubbell NEXTFRAME® Ladder Tray (gray, black) for data centers and industrial use; standard industrial ladder trays in pre-galvanized, hot-dip galvanized, or powder-coated finishes.

Perforated Cable Tray

Structure: Solid bottom with perforations for ventilation. Applications: Medium-weight cables, protection from minor physical damage, and heat dissipation.

Finishes/

Colors: Pre-galvanized, painted, hot-dip galvanized, powder-coated.

Solid-

Bottom Cable Tray

Structure: Fully enclosed tray without ventilation holes. Applications: Sensitive signal cables, fiber optics, EMI/RFI protection.

Finishes/

Colors: Steel, stainless steel, aluminum; often powder-coated or painted for corrosion resistance. Wire Mesh (Basket) Cable TrayStructure: Welded steel wire mesh forming an open tray. Applications: Data centers, telecom, low-voltage and fiber optic cables; easy installation and modification.

Finishes/

Colors: Stainless steel, galvanized steel, powder-coated; typically silver or gray.

Channel Cable Tray

Structure: U-shaped or channel-like compact tray. Applications: Light cable loads, short runs, tight spaces.

Finishes/

Colors: Aluminum, steel, stainless steel; powder-coated or painted options available.

Common Materials and Finishes

Steel: Pre-galvanized, hot-dip galvanized, painted, powder-coated. Aluminum: Natural finish or anodized for corrosion resistance. Stainless Steel: AISI 316L grade for high corrosion resistance.

Fiberglass Reinforced Plastic (FRP): Pultruded trays for chemical or highly corrosive environments.

Color Options

Gray: Standard industrial and commercial finish. Black: Often powder-coated for aesthetic or equipment-matching purposes. Custom Colors: Available via powder coating or painting to meet project specifications.

Manufacturer Examples

Legrand: Offers a range of cable trays with multiple finishes and compliance certifications.
