Cable tray pressure strip fixing bracket

Overview

These brackets are securely fixed to the wall or ceiling using a supporting flange, providing a stable and reliable platform for the cable tray system. They come in various designs, including L-brackets, U-brackets, and cantilever arms. Cable trays are components used in the wiring of buildings to support insulated cables and organise them to be hidden from view. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. Cut, bend, and connect the wire mesh trays to route cable and hose in configurations such as curves, slopes, and tees. These are the most corrosion-resistant tray systems we offer for. Spina Group offers a complete range of cable tray accessories and fixing components designed to simplify installation and ensure maximum stability for electrical and instrumentation systems. ChannelandTray provides high-quality splicers that offer a secure and robust connection, maintaining the structural integrity of the cable tray system.
