

Cable tray prices available for sale in Egypt

Overview

Browse our full range of cable tray products in Egypt: Cable Trays, Cable Ladders, Cable Trunks & Wire Mesh Trays. Hot-dip galvanized & custom finishes available.

Key Takeaways

Cable tray prices in Egypt vary widely depending on type, material, size, and accessories, typically ranging from EGP 150 to EGP 1,200 per meter.

Price Overview

The cost of cable trays in Egypt depends on several factors: Type of tray: Perforated, solid-bottom, ladder, or basket trays have different prices due to design complexity and load capacity. Material: Galvanized steel, stainless steel, aluminum, and PVC-coated trays differ in durability and cost. Galvanized steel is common and cost-effective, while stainless steel and aluminum are more expensive.

Dimensions and thickness: Width, side height, and sheet thickness (0.8 mm to 2 mm) significantly affect the price. Accessories: Covers, connectors, bends, risers, and junctions add to the total cost.

Installation method: Wall-mounted, ceiling-suspended, or floor-mounted systems may influence pricing due to labor and support requirements.

Typical Price Range

Basic perforated or ladder trays: Approximately EGP 150–400 per meter. Medium-duty galvanized trays with accessories: Around EGP 400–800 per meter. High-end stainless steel or aluminum trays: Can reach EGP 800–1,200 per meter, especially for industrial or corrosive environments.

Suppliers and Manufacturers

Several companies in Egypt provide cable trays and related accessories: United Engineers: Offers detailed price lists and catalogs for various tray types and materials.

Metal

Egypt: Supplies galvanized steel, stainless steel, aluminum, and PVC-coated trays with full accessory support. El Masrya El Almanya, Al-Yathreb, Rovana Trade, Delta Steel, Gold Steel, Kayan Metal: Local manufacturers providing custom sizes, laser-cut precision, and competitive pricing for industrial and commercial projects.

AETRONI

X Egypt: Distributor of cable trays and baskets suitable for electrical and data installations.

Recommendations

Assess your project needs: Choose the tray type, material, and thickness based on load, environment, and safety requirements. Request quotations: Contact suppliers directly for accurate pricing, as costs vary with quantity, customization, and delivery. Consider quality over price: Avoid very cheap options that may compromise durability and safety.

By evaluating these factors, you can select the most suitable cable tray system in Egypt that balances cost, quality, and project requirements.
