Cable tray support brackets without drilling

Overview

These brackets utilize strong magnets to secure the cable tray to metal surfaces, such as beams or walls. They provide a secure hold without any damage to the mounting surface, making them an ideal option for installations where drilling is not desired or possible due to structural. Whether you're concerned about damaging surfaces or simply looking for a more convenient installation method, there are alternative options available that allow you to install cable tray brackets without drilling holes. Magnetic cable tray brackets are becoming increasingly popular due to their. OBO – ohne Bohren (without drilling) – became a part of our name. More than half a century has passed since this invention. However, OBO's spirit of innovation has remained and continues to flow into now more than 30,000 products. They are a lightweight option for organizing bundles of cable and hose while keeping them accessible. These are the most corrosion-resistant tray systems we offer for. Global Recycled Standard (GRS) certified products contain recycled content that has been independently verified at each stage of the supply chain, from the source to the final product and meet social, environmental, and chemical requirements. per foot (based on a tray support, such as hanging clamps or a. Direct Channel offers a comprehensive selection of Cable Tray Brackets and Hangers, designed to provide robust support and efficient installation for various cable management systems.
