Cambodian cable trays

Overview

Our cutting-edge cable tray systems were developed to provide unmatched safety and ease of maintenance in Cambodia.

Key Takeaways

Cambodia offers a variety of cable tray models including ladder, perforated, wire mesh, and trunking types, made from mild steel, aluminum, and stainless steel.

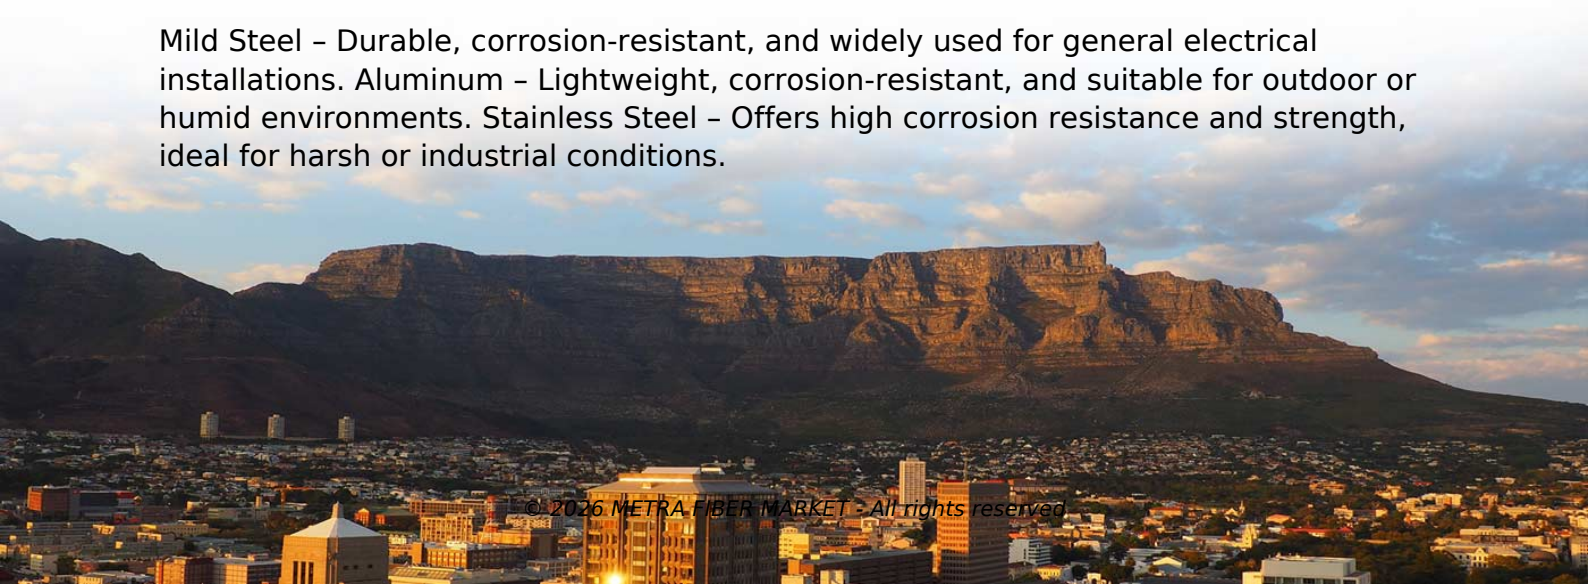

Types of Cable Trays in Cambodia

Ladder Cable Trays – Ideal for heavy-duty applications, providing strong support and easy cable access. Commonly used in industrial and commercial installations. Perforated Cable Trays – Feature holes in the base and sides for ventilation and drainage, suitable for electrical and data cables.

Wire Mesh Trays – Flexible and lightweight, allowing easy routing of cables in complex layouts. Cable Trunking – Enclosed trays for added protection, often used in office or sensitive environments. Underfloor and Raised Floor Trunking – Designed for data centers and office spaces to manage cables beneath floors.

Materials

Mild Steel – Durable, corrosion-resistant, and widely used for general electrical installations. Aluminum – Lightweight, corrosion-resistant, and suitable for outdoor or humid environments. Stainless Steel – Offers high corrosion resistance and strength, ideal for harsh or industrial conditions.

Suppliers and ManufacturersGV Industries – Based in Phnom Penh, supplying high-quality cable trays and equipment racks with custom solutions for complex installations. Brilltech Engineers – Specializes in mild steel cable trays with precision engineering and easy installation. Super Cable Tray Pvt.

Ltd. – Offers aluminum and stainless steel trays, including ladder, perforated, and wire mesh types, with customization options for industrial and commercial projects.

CAD Models and Design Resources

For engineers and designers, CAD files for cable trays are available in formats like SOLIDWORKS, AutoCAD, Revit, and STEP, which can assist in planning and installation.

Summary

Cambodia provides a wide range of cable tray models suitable for various applications, from industrial to office environments. Options include ladder, perforated, wire mesh, and trunking trays, made from mild steel, aluminum, or stainless steel, with multiple local suppliers offering both standard and customized solutions. These models ensure efficient cable management, durability, and compliance with industry standards.
