Cold Light Source Fiber Optic Tee Cold Connector

Overview

Fiber optic cable adapter to light source for cold light transmission in endoscopy, laparoscopy, urology, gynecology, otorrino. This product is not sold individually. You must select at least 1 quantity for this product. If you are looking for a partner for the production of medical cold light cables, FIBERTEC Faseroptik GmbH is the right choice. In over 28 years we have built up extensive knowledge and in-depth expertise, gained valuable experience and continuously developed. We offer our customers an extensive. SCHOTT ColdVision Fiber Optic Illumination for machine vision and stereo microscopy brings together LED light sources, fiber optic light guides and accessories in a single, versatile service where the products are specially designed to work together.

Article Content

Cold light fibre optic cables & adapter

With this selection, we cover the entire spectrum of medical cold light cables for endoscopy, laparoscopy as well as gynecology. This allows you as a user to

ColdVision Fiber Optic Illumination | SCHOTT

By using glass optical fibers with high incoupling efficiency in combination with powerful light sources, the SCHOTT ColdVision series offers a homogeneous and at the same time high light output.

SCHOTT ColdVision Fiber Optic Illumination Technical Details

The technical properties of SCHOTT ColdVision fiber optic light sources and their range of accompanying light guides and accessories create a compatible and efficient modular lighting system

SCHOTT ColdVision Fiber Optic Illuminators

Available in Cool White or RGBW, the CV-LS series contains an optical feedback loop that controls light intensity for consistent, reproducible results in industrial inspection applications.

Fiber optics, light guide & cold light cables for industry

We are manufacturer of medical cold light cables and special solutions. We offer our customers a wide range of cold light cables and accessories, as well as

Fiber optics illumination, cold light source

The goal of lighting in stereo microscopy and macroscopy is to enhance the contrast of the object to distinguish the feature of interest. Various light sources (LED, halogen) for sending the light via fiber

Schott Fiber Optic Light Sources catalogue

The ACE® is a cost effective and reliable 150-watt cold light source which provides premium quality, intense light for Stereo Microscopy, Macroscopy and Machine Vision applications.

SCHOTT ColdVision CV-LS LED Fiber Optic Light

The CV-LS light source is the flagship of the SCHOTT ColdVision series, offering high efficiency output in a compact footprint with versatile connectivity.

Cold light sources

The fan-less Led light sources are an energy saving replacement for conventional 150 W halogen cold light sources. The passive cooling system enables a noiseless and vibration-free operation.

Fiber optic cable adapter to light source

Fiber optic cable adapter to light source for cold light transmission in endoscopy, laparoscopy, urology, gynecology, otorrino. This product is not sold individually.
