Cost of Hot-Dip Galvanized Cable Trays in Zhuji

Overview

"Hot Dip Galvanized Cable Tray" Opt for factory-direct pricing or OEM deals to save costs and ensure your system meets specific requirements for flexibilit.

Key Takeaways

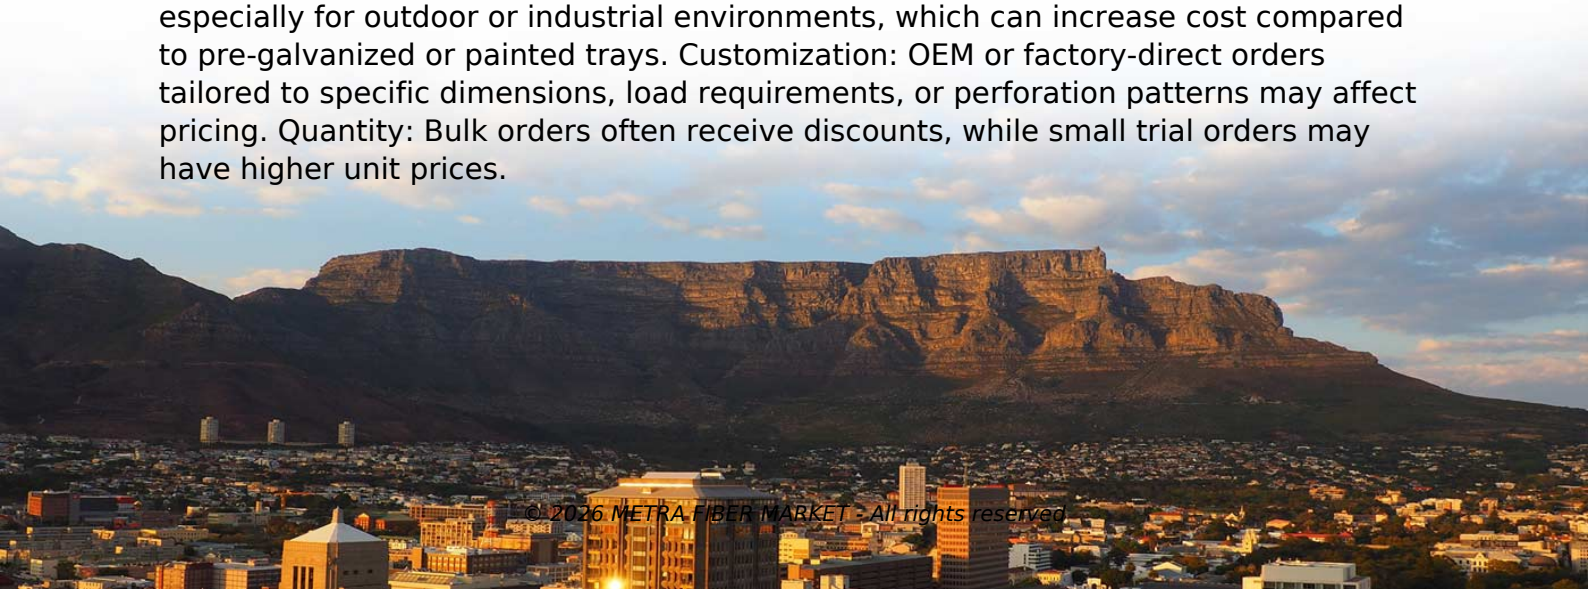

Hot-dip galvanized cable trays in Zhuji typically range from $10 to $50 per meter, depending on size, load capacity, and customization options.

Pricing Overview

The price of hot-dip galvanized cable trays varies significantly based on width, side rail height, length, and load capacity. For example, standard ladder-type trays with widths from 150mm to 600mm and side rail heights of 15–200mm generally fall within $10–$50 per meter, with larger or heavier-duty trays costing more. Perforated or ventilated trays may also be slightly higher due to additional manufacturing steps.

Factors Affecting Price

Material and Coating: Hot-dip galvanization provides superior corrosion resistance, especially for outdoor or industrial environments, which can increase cost compared to pre-galvanized or painted trays. Customization: OEM or factory-direct orders tailored to specific dimensions, load requirements, or perforation patterns may affect pricing. Quantity: Bulk orders often receive discounts, while small trial orders may have higher unit prices.

Supplier Location and Terms: Suppliers in Jiangsu and Shandong provinces, including Jiangsu Holdee Electric Co., Ltd. and Shandong Zhongjia Equipment Manufacturing Co., Ltd., offer FOB or EXW terms, with payment typically requiring 30% advance and balance before shipment.

Additional Considerations

Load Capacity: Trays can support up to 300kg/meter, and higher-capacity trays may cost more. Delivery and Shipping: Costs may vary depending on distance from the factory to Zhuji and shipping method. Some suppliers provide free samples, but courier fees are usually borne by the customer.

Quality Assurance: Reputable suppliers perform galvanized thickness tests, salt spray tests, and load tests to ensure durability. For an accurate quotation, it is recommended to contact suppliers directly with your required tray dimensions, quantity, and specifications, as prices are highly dependent on these factors.
