They offer plastic, aluminum, and stainless steel enclosures, including IP68 waterproof models, suitable for temporary or permanent electrical distribution setups. Orders can start from single units, making them ideal for prototypes or small-scale projects, with short lead times for urgent needs (Takachi). Considerations for Choosing a Temporary Distribution BoxEnvironment: Select waterproof or dustproof models for outdoor use, and explosion-proof options for hazardous areas.

Mobility: Portable boxes are recommended for construction sites or temporary installations. Electrical Layout: Ensure the box supports the required voltage, current, and protection devices. Material: Plastic, aluminum, or stainless steel depending on durability and weight requirements.

Customization: Many suppliers offer tailored sizes, socket configurations, and additional features like solar integration or circuit breakers.

Contact and Procurement

For project-specific needs, it is recommended to contact suppliers directly to discuss specifications, lead times, and pricing.

DD

Y Group can be reached via email (info@ddysupply.com, elva@ddysupply.com) or WhatsApp (+86 15305045587) for quotations and customization inquiries.
