Distribution box sealed

Overview

Seal an electrical enclosure by matching the IP/NEMA rating, using the right gasket, cable glands, sealant, and inspection steps to block dust, water, and corrosion. Control cabinets protect and maintain the function of the “brain” (the control system) of a machine or plant in the best possible way against malfunctions and mechanical damage. As the digitalization and automation of the production facilities progresses towards Industry 4. 3 to 15 modules: Wide range of sizes for all setups. 3. The groove contours of electronic distribution boxes and the very narrow grooves of micro-distribution housings are seamlessly sealed with the sealing foams of the polyurethane-based FERMAPOR K31 or the silicone-based FERMASIL product families. Premium Materials: Crafted with high-quality ABS plastic, the durable enclosure provides reliable protection for your electrical components. The waterproof cover ensures optimal performance in various weather conditions, making it suitable for outdoor use. Waterproof and Secure: With an IP65.
