Distribution box wf

Overview

WFCO WF-8930/50NPB-50 50 Amp or 30 Amp AC ALL-IN-ONE POWER DISTRIBUTION – Combines AC breaker panel and DC Electrical Distribution Boxes for Power Distribu.

Key Takeaways

The WFCO WF-8930/50 is a versatile RV power distribution box supporting 30 or 50 Amp AC service with integrated AC and DC circuits for streamlined power management.

Overview

The WFC

O WF-8930/50NPB is designed primarily for RV applications, combining both AC breaker panels and DC fuse distribution in a single unit for efficient power management. It supports 30 Amp or 50 Amp AC service, making it suitable for a wide range of RV electrical systems. Circuit CapacityAC Circuits: Up to 12 branch circuitsDC Circuits: Up to 15 branch circuits This high circuit capacity allows the distribution box to handle multiple appliances and devices simultaneously, ensuring reliable power distribution throughout the RV.

Installation FeaturesSnap-in 12V fuse board for easy installation without screwsIntegrated strain relief and accessible wiring layout for faster setup and maintenanceTwo-piece system allows the panel to fit smaller wall areas, providing flexibility in RV design Compatibility and IntegrationThe WF-8930/50 can be coupled with WF-9800 switch mode converters (55, 65, or 75 Amps), offering flexibility in power conversion and design. It is compatible with standard residential breakers in some models, simplifying replacement and upgrades. Safety and CertificationUL® and cUL® listed, ensuring compliance with US and Canadian safety standardsBuilt-in safety features for both AC and DC circuitsTwo-Year Limited Product Warranty from WFCO ApplicationsThis distribution box is ideal for: RVs and mobile homes requiring centralized AC/DC power managementSystems needing high circuit capacity and reliable safety featuresIntegration with switch mode converters for efficient power conversion SummaryThe WFCO WF-8930/50 series distribution box is a robust, reliable, and flexible solution for RV electrical systems, offering high AC/DC circuit capacity, easy installation, and compliance with safety standards.

Its design supports both OEM and aftermarket applications, making it a preferred choice for RV manufacturers and enthusiasts alike.
