# East Asia Spectrometer Equipment Manufacturer

## Overview

Today, we offer hundreds of models across chromatography, spectroscopy, mass spectrometry, and rapid detection, serving clients in dozens of countries.

## Key Takeaways

Leading spectrometer manufacturers in East Asia include East & West Analytical Instruments (China), EastWest SVC Pte Ltd (Singapore), and SPECTRO Analytical Instruments (Asia-Pacific). Key Manufacturers and Distributors1. East & West Analytical Instruments (EWAI), China EWAI specializes in advanced spectroscopy, chromatography, and mass spectrometry technologies.

Their instruments are widely used for detecting pesticide residues, heavy metals, microbial contamination, and environmental pollutants.

## EWA

I also provides high-precision spectrometers for electronic components, semiconductors, and 5G communications applications. The company actively participates in international exhibitions such as LAB-Indonesia and analytica Hanoi, showcasing products like the GC-4200 Gas Chromatograph and nucleic acid mass spectrometry detection systems. 2.

## East

## West SV

C Pte Ltd, Singapore EastWest SVC is a Singapore-based distributor focusing on spectroscopy and photonics instrumentation. They serve scientific laboratories, industrial research, and life sciences markets across Southeast Asia. Their client base includes universities, research institutions, and major corporations such as NUS, Leica Microsystems, HP, Qualcomm, and ThermoFisher Scientific.

The company provides a wide range of products and solutions for analytical and industrial applications. 3.

## SPECTR

O Analytical Instruments (Asia-Pacific) SPECTRO, part of AMETEK Materials Analysis Division, is a leading global supplier of analytical instruments, including optical emission spectrometers (OES, ICP-OES) and X-ray fluorescence (XRF) systems. Their instruments are used for elemental analysis in industry, research, and academia.

## SPECTR

O has delivered over 50,000 instruments worldwide, covering applications from metal recycling to fully automated process control in complex industrial environments.

## Additional Notes

These manufacturers and distributors provide solutions for food safety, environmental monitoring, electronics, and materials analysis. Many of these companies participate in regional exhibitions and conferences, facilitating partnerships and technology transfer in East Asia. For further exploration, directories like Bimedis list additional spectroscopy equipment manufacturers in Asia, which can be useful for sourcing or partnership inquiries.

These companies represent some of the most reputable and technologically advanced spectrometer equipment providers in East Asia, offering both manufacturing and distribution capabilities across multiple industries.
