

Energy-saving distribution boxes

Overview

Here are six brands that stand out in 2025: Schneider Electric uses smart technology for better control. DOHO Electric designs energy-saving solutions. Legrand offers stylish and modular systems. Rockwell Automation provides strong digital integration. And when it comes to mastering these pillars, one name rises above the competition: Coloria. Our products are widely used in various industries, such as solar energy, wind energy, data center, communications, new energy. Electrical distribution boxes are the silent conductors of a building's lifeblood: power. They ensure electricity flows safely, efficiently, and reliably to every corner, from the bright lights of a commercial lobby to the quiet hum of a residential kitchen. Mailbox dimensions, types, colours and additional components such as a doorbell, nameplates, house numbers or cameras can be designed and planned entirely to your specifications.
