

Explosion-proof distribution box ZLB

Overview

The explosion-proof distribution box safely delivers power in hazardous zones (oil, gas, chemical plants) with rugged, spark-resistant casing—ATEX/IECEX, IP66 certified for reliable operation in explosive environments. Products are widely used in engineering projects such as. Warom Explosion proof Distribution Box (Ex d IIB+H2) in 316 stainless steel. Available with a wide range of built in components. Enclosure: 316 stainless steel. Equipped with a specialised hinge structure which can prevent damage to the flameproof joints when opening and closing the box; greatly. The enclosure series EJB forms the optimal basis for the application-specific configuration of terminal boxes, control stations as well as control and distribution panels. They are available in many sizes, a wide range. ·Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc. ·Equipped. ROSE Aluminium, Polyester and Stainless-Steel Ex Enclosures and Control Stations assure reliable protection for electrical distribution systems in explosion-endangered zones. ROSE Control Stations (local control points) are certified for use in explosion-endangered zones containing combustible. Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. These sturdy solutions are certified according to global standards such as ATEX, IECEx.
