Funing Fireproof Cable Tray Wholesale Price

Overview

Fireproof cable tray available for wholesale, starting at $0.32 to $12. Minimum order quantity is 10 units. Hot dip galvanized, custom perforated, and anodized options.

Key Takeaways

Wholesale fireproof cable trays in 2026 range from approximately $0. 32 to $12 per unit, depending on material, size, and fire rating.

Price Overview

Fireproof cable trays are available in a variety of materials including galvanized steel, stainless steel, aluminum, and fiberglass-reinforced plastic (FRP), with prices influenced by durability, fire resistance, and environmental suitability. Wholesale prices typically start at $0. 32 per unit for basic galvanized options and can reach $12 per unit for high-spec, fire-rated trays with custom finishes.

Minimum order quantities (MOQs) often begin at 10 units, making bulk purchases feasible for industrial and construction projects.

Material and Fire Rating Considerations

Galvanized Steel: Strong, durable, and cost-effective; suitable for most indoor and outdoor applications. Stainless Steel (304/316): Corrosion-resistant, ideal for harsh environments; higher upfront cost but long-term durability. Aluminum: Lightweight and corrosion-resistant; easier to install but may have lower load capacity.

FRP/Advanced Thermoplastics: Excellent fire resistance and chemical resistance; often used in corrosive or high-temperature settings. Fire ratings are critical for compliance with safety standards, typically ranging from 60 to 120 minutes, verified by UL, BS, or IEC certifications. Higher fire ratings generally increase the unit price.

Supplier and Bulk Purchase Tips

Verify supplier reliability and third-party certifications to ensure compliance with NFPA, IBC, or local fire safety codes. Consider total cost of ownership, including installation, maintenance, and expected lifespan, rather than just the initial unit price. Bulk procurement channels are increasingly digital, allowing buyers to compare prices, MOQs, and supplier ratings efficiently.

Popular Wholesale Options

Spray fireproof ladder-type trays with customizable side rail heights (75–400 mm) and galvanizing or fireproof coatings are widely available. Hot-dip galvanized and perforated trays are common for resale and industrial applications, offering a balance of cost and durability. In summary, wholesale fireproof cable trays in 2026 offer a wide price range from $0.

32 to $12 per unit, with material, fire rating, and supplier reliability being the main factors affecting cost. Bulk buyers should prioritize certified products and consider lifecycle costs to ensure safety and long-term value.
