Haiti CIF Price Optical Amplifier SFP

Overview

6Wresearch actively monitors the Haiti Optical Transceivers Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook.

Key Takeaways

The CIF price of an optical amplifier SFP module in Haiti includes the product cost, shipping, insurance, and import duties such as 10% VAT, 5% inspection fee, and 2% CFGDCT.

SF

P Module PricingSFP (Small Form-factor Pluggable) modules are widely used in optical communication networks and come in various types and speeds, including 1G, 10G, 25G, and higher. Typical commercial prices for standard SFP modules range as follows: 1G SFP modules: approximately $10–$30 per unit10G SFP+ modules: approximately $30–$80 per unit25G SFP28 modules: approximately $50–$120 per unit Prices vary depending on the manufacturer, compatibility, and whether the module is OEM or third-party compatible ( ). Bulk orders often receive discounts, and some suppliers offer additional savings for orders exceeding 10 units ( ).

Import Costs in Haiti

When importing SFP modules into Haiti, the CIF price is subject to several fees and taxes: Verification/Inspection Fee: 5% of CIF value (waived for goods in transit or temporary entry) ( )Value-Added Tax (TVA): 10% of CIF value, applied in addition to customs duties and inspection fees ( )Contribution to Management Funds for Territorial Collectives (CFGDCT): 2% of CIF value on most imports ( )Example CalculationAssuming a 10G SFP+ module costs $50 per unit and shipping plus insurance adds $10 per unit, the CIF value is $60. The import fees would be: Inspection Fee: 5% of $60 = $3TVA: 10% of $60 = $6CFGDCT: 2% of $60 = $1.

20 Total CIF landed cost per unit in Haiti: $60 + $3 + $6 + $1. 20 = $70. 20NotesPrices may vary depending on the supplier, shipping method, and volume.

For high-speed or specialized optical amplifier SFP modules (e.g., DWDM or long-reach), the base module price can be significantly higher. Bulk orders or direct negotiation with suppliers like QSFPTEK, Alibaba vendors, or Cisco/Huawei distributors can reduce the per-unit cost ( ). By combining the module price with Haiti's import fees, businesses can accurately estimate the CIF price for budgeting and procurement purposes.

Sell Haiti Optical Fiber Cable Manufacturers in bulk to verified buyers and importers. Connect with businesses actively looking to buy wholesale Haiti Optical Fiber Cable Manufacturers at best prices.

The road to SFP+: Examining module and system architectures

Two variants of SFP+ are currently being specified. The limiting variant, which closely resembles current SFP modules, includes a laser driver, a TOSA, a ROSA, and a limiting amplifier.

SOA Optical Amplifiers

SOA Optical Amplifiers by HTF support 10G, 40G, and 100G transmission systems. With low noise and high gain, they cover the 1260-1340nm wavelength range.| Alibaba
