How many years is the warranty for indoor distribution boxes

Overview

Mandatory warranty coverage for distribution systems generally lasts about 2 years, with some coverage extending to 10 years for major structural defects. Consumers should check state laws as warranty durations can vary. While some manufacturers offer a 1-year warranty (if that), Coloria stands behind their products with warranties that stretch up to 5 years. That's not just a number—it's a promise that they believe in the quality of what they build. And if something does go wrong?

Their global service network. Country of Origin Marking:RACO® steel boxes made in countries other than USA have the origin marked on the part. Modifying product or installing in a manner the product was not designed for renders the certification. As part of our commitment to premium quality, all of our Acti 9 boards come with a 5-year warranty. The manufacturer undertakes that, if within 5 years of manufacture, the Acti9 Isobar distribution board or. Eaton's engineered-to-order power distribution and control assemblies include low and medium voltage switchgear and motor control systems, integrated power assemblies (e-houses), unit substations, unitized power centers and substation power centers.) have a life expectancy of 50-70 years, depending on installation conditions.
