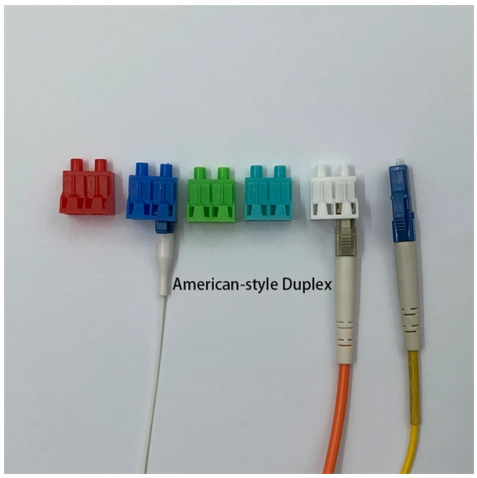
How much clearance should be left between the cable tray hanger and the tray slot



Overview

Clearances: Maintain at least 12 inches of vertical clearance above trays for installation and maintenance access (2026 NEC update). These systems, made from metal or plastic, are open structures designed to support electrical conductors, ensuring proper organization and safety. One of the key. The NEC requires that cable trays must be supported by members at an interval specified by the cable tray manufacturer, but not more than 5 feet for horizontal runs to support the weight of the cables and other loads. The NEC has a requirement for ladder-type cable trays. Here are some general guidelines: 1. IEC & BS Standards (Commonly Used in the UK & Internationally) IEC 61537 (Cable Tray Systems and Cable Ladder Systems):.
