How much does a Brazilian cable ladder tray cost

Overview

Cable Tray Price List | Electrical Works The cable tray price list are for hot dip galvanized ladder type cable tray. The price is based on standard length.

Key Takeaways

The cost of a Brazilian ladder-type cable tray typically ranges from $2 to $25 per meter, depending on material, coating, and size.

Price Range and Factors

The price of a Brazilian cable ladder tray varies widely based on several factors: Material: Galvanized steel is the most common and cost-effective option, while stainless steel and aluminum are more expensive due to corrosion resistance and lightweight properties. Plastic trays are cheaper but not suitable for heavy loads. Coating: Hot-dip galvanized (HDG) trays are more durable and suitable for outdoor use, costing more than pre-galvanized or powder-coated trays.

Size and Load Capacity: Larger trays or those designed to hold heavier cables cost more. Standard lengths are often 2. 4 meters per section.

Supplier and Quantity: Bulk orders can reduce the per-meter cost, while smaller orders or specialized suppliers may increase it. Additional Costs: Shipping, installation, and labor can significantly affect the total project cost. Typical Pricing ExamplesHot-dip galvanized ladder trays: Prices are generally in the mid-range of $10–$25 per meter, depending on thickness and load capacity.

Pre-galvanized or powder-coated trays: Usually cheaper, around $2–$15 per meter, suitable for indoor or less corrosive environments. Aluminum or stainless steel trays: Can exceed $25 per meter due to material costs and specialized manufacturing.

Practical Considerations

When budgeting for Brazilian cable ladder trays, consider: Project scale: Large installations may benefit from bulk pricing. Environmental conditions: Outdoor or corrosive environments require HDG or stainless steel. Installation complexity: Labor costs can sometimes exceed the material cost, especially for high or complex routing.

In summary, a Brazilian ladder-type cable tray can cost as little as $2 per meter for basic pre-galvanized trays or up to $25 or more per meter for high-quality HDG, aluminum, or stainless steel trays, with the final price influenced by material, coating, size, and installation requirements.
