How much does a low-temperature resistant optical cable fixing clamp cost wholesale

Overview

Shop high-quality optical clamps for fiber optic cables. Find durable, reliable, and affordable solutions for your telecom and power needs. Bulk orders welcome.

Key Takeaways

Low-temperature resistant optical cable clamps typically cost around $0. 5 per piece wholesale, depending on material, size, and supplier.

Pricing Overview

Wholesale prices for optical cable fixing clamps vary based on material, design, and environmental resistance. For example, clamps made from stainless steel and UV-resistant nylon suitable for fiber optic cables are available at approximately $0. 5 per piece when purchased in bulk.

Prices may increase for specialized clamps designed for extreme low-temperature operation or additional mechanical strength.

Temperature and Material Specifications

© 2026 METRA FIBER MARKET - All rights reserved

Temperature Range: Some clamps are tested to operate reliably from -60°C to +60°C, making them suitable for harsh outdoor or industrial environments. Materials: Common materials include stainless steel, aluminum, and reinforced nylon, providing corrosion resistance, mechanical stability, and long-term durability. Design Features: Many clamps include wedges, shims, and bail wires to secure optical cables without causing micro-bends or signal loss.

Supplier Options

Alibaba and Made-in-China platforms offer bulk purchasing options with customizable sizes and materials.

TUOLIM

A and Fibconet provide clamps specifically tested for low-temperature performance and long-term reliability. Customization: Suppliers can adjust clamp dimensions, material composition, and UV or temperature resistance according to project requirements.

Practical Considerations

Bulk Orders: Prices decrease significantly with larger quantities, often starting at hundreds to thousands of pieces. Durability: Look for clamps with UV resistance, corrosion protection, and mechanical testing certifications to ensure long-term performance in extreme conditions. Installation: Many clamps are designed for easy installation on ADSS or FTTH cables, reducing labor costs and installation time.

In summary, for low-temperature resistant optical cable fixing clamps, expect a wholesale price starting around $0. 5 per piece, with variations depending on material, size, and supplier customization options.
