Integrated DC Power Supply Panel Manufacturer

Overview

Panel Mount PSU Designed to meet IEC 60335-1, 61558-1, and 61010-1 standards, they support peak power for motor-type loads and are ideal for semiconductor.

Key Takeaways

Leading manufacturers of integrated DC power supply panels include FSP Power Solution, Camtec Power Supplies, Renesas, and Inpotron, offering solutions for industrial, laboratory, and automation applications.

FS

P Power Solution GmbHFSP specializes in panel mount AC/DC power supplies ranging from 100–500W, suitable for industrial and lab environments. Their products are certified to UL 62368-1, CSA 62368-1, and IEC standards (60335-1, 61558-1, 61010-1), supporting peak power for motor-type loads.

FS

P offers 12V, 24V, and 48V variants, ideal for semiconductor tools, lab instruments, biochemical analyzers, and gaming systems. Their decades of experience and patented designs ensure high reliability and compliance with international safety standards. Camtec Power Supplies GmbHCamtec manufactures switch mode power supplies (SMPS) and assemblies for automation, machine building, and electronics industries.

Their portfolio includes AC/DC and DC/DC converters for DIN-rail, chassis mount, open frame, and rack mount applications. Camtec also provides programmable DIN-rail power supplies, DC-UPS, battery chargers, and redundant modules up to 60 kW. All products are Made in Germany and certified to DIN EN ISO9001: 2015, CSA, UL, CE, RoHS, and REACH, suitable for infrastructure, railway, traffic control, and military applications.

Renesas

Renesas offers fully integrated DC/DC power modules capable of handling up to 80A. These modules combine the controller, MOSFETs, passive components, and output inductor into a compact package. They feature digital control, high efficiency, and small form factor, simplifying design and reducing engineering effort.

Renesas provides tools like PowerCompass™ for system analysis and custom reference designs, making their solutions suitable for industrial, automotive, and consumer electronics applications.

Inpotron

Inpotron specializes in customized power supply solutions, including AC/DC, DC/DC converters, UPS, and open board or open frame designs. With over 25 years of experience, they provide high-performance, durable, and reliable complete solutions tailored to industrial, medical, LED lighting, telecommunications, building systems, and transport sectors. Inpotron also offers custom housings, retail packaging, and accessories for fully integrated solutions.

Summary

For integrated DC power supply panels, these manufacturers provide a range of standard and custom solutions with certifications, high reliability, and application-specific features. Selection depends on your power requirements, form factor, programmability, and industry standards compliance.

FS

P and Camtec are strong choices for industrial and lab applications, Renesas excels in compact high-current modules, and Inpotron offers fully customized solutions for specialized needs.

Panel Mount PSU

Designed to meet IEC 60335-1, 61558-1, and 61010-1 standards, they support peak power for motor-type loads and are ideal for semiconductor tools, lab instruments, biochemical analyzers, and

Panel Mount Power Supply | FSP TECHNOLOGY INC.

FSP Group specializes in power supply design for decades, products have numerous patents and meets the quality certifications. FSP''s Panel Mount PSUs are designed in compliance with IEC 60335-1,

Programmable Power Supplies and Electronic Loads

Combining robust power processing topologies with state-of-the-art vertically integrated USA manufacturing, tens of thousands of companies—from startups to Fortune 500s—rely on

Integrated Power Designs AC-DC & DC-DC Power Supplies

Integrated Power Designs manufactures a large array of AC-DC & DC-DC Power Supplies suitable for Medical, Industrial, Audio Video communication applications

Infypower – Power Electronics & Smart Energy Solutions

Infypower is a global leader in power electronics, EV charging & energy storage. Specializing in R&D and manufacturing, we deliver intelligent control solutions under the Infy Solved™ strategy.

Programmable DC Power Supplies

From benchtop and modular power supplies to rack-mounted industrial power subsystems, AMETEK Programmable Power is a leader in designing and manufacturing precision, programmable, and

DC Power Solutions

With options for standardized systems and custom DC system integration, Alpha has the flexibility to provide DC power solutions perfect for a wide range of power needs and various site installation

Industrial Power Supplies | Rectifiers | Inverters

For decades, BENNING has been supplying modular AC and DC power supplies for battery-supported power supply of electronic systems in telecommunications,

Leading Switching Power Supplies & Solutions | PSU ltaww
