Ladder-type galvanized cable tray manufacturer processing

Overview

Two hot dip galvanized steel C-Channel profile side rails with transverse ladder rungs; provides the most rigid ladder tray system. Ideal for high vibration environments.

Key Takeaways

Top manufacturers of ladder-type galvanized cable trays include Parco Engineers, Spina Group, Superfab Cable Trays, ELCON Global, and Bravo Cable Trays, offering HDG, GI, and custom solutions for industrial and commercial applications.

Leading Manufacturers

Parco Engineers Parco Engineers specializes in hot-dip galvanized (HDG) ladder cable trays with a ladder-like design that supports heavy-duty power and communication cables. Their trays provide excellent ventilation, heat dissipation, and easy maintenance, making them suitable for power plants, oil and gas, petrochemical, manufacturing, and data centers. They offer custom sizes, IS-compliant products, and in-house galvanizing facilities for tailored solutions.

Spina Group (Schiavetti Tekno) An Italian manufacturer, Spina Group produces HDG and stainless steel ladder cable trays for industrial and infrastructure projects. Their ladder trays are designed for high mechanical resistance, maximum ventilation, and safe cable routing. They provide custom widths, compatibility with Unistrut systems, and accessories like elbows, junctions, and covers for indoor and outdoor use.

Superfab Cable Trays Superfab offers a wide range of GI, HDG, powder-coated, and ladder-type cable trays. Their products are suitable for industrial and commercial installations, emphasizing robust construction, heavy-duty designs, and efficient cable management. They also provide customized solutions to meet specific project requirements.

ELCO

N Global Based in Pune, India, ELCON Global manufactures hot-dip GI, pre-galvanized, powder-coated, electroplated, and painted ladder cable trays. Their trays are designed for optimal airflow, high load capacity, and secure cable distribution.

ELCO

N also offers accessories such as bends, tees, reducers, and couplers, along with professional installation services. Bravo Cable Trays Bravo Cable Trays produces welded ladder-type trays using high-grade galvanized sheets, with options for painted and powder-coated finishes. Their trays are available in widths from 150 mm to 1200 mm and heights from 50 mm to 150 mm, with standard lengths of 2500 mm.

They are designed for heavy-duty power distribution, offshore, and modular applications, providing maximum airflow and heat dissipation.

Key Features Across Manufacturers

Material & Finish: Hot-dip galvanized (HDG), galvanized iron (GI), stainless steel, powder-coated, painted, or electroplated. Design: Ladder-type with open rungs for ventilation and heat dissipation. Applications: Industrial plants, power distribution, data centers, oil & gas, petrochemical, pharmaceutical, and commercial infrastructure.

Customization: Sizes, lengths, accessories, and installation support tailored to project needs. Compliance: IS, EN, and UL standards for strength, durability, and corrosion resistance. These manufacturers provide reliable, scalable, and durable ladder-type galvanized cable tray solutions suitable for a wide range of industrial and commercial applications.
