Large-span perforated cable trays

Overview

Large span cable trays are designed to support heavy cable loads across long distances without intermediate supports. Manufactured from high-quality GI, Hot Dip Galvanized, Powder Coated, and Stainless Steel materials. Available in mul ating ensures durability in harsh environments. Standard lengths available in 2500mm & 3Cable trays are an integrated, highly flexible cable support system when used in combination with the matching support structures, covers and system-specific accessories. They are available in perforated (RG) or non-perforated (R) versions, in heavy-duty versions (RS/RGS), for use under sprinkler. Strong and durable large span cable trays designed for heavy-duty industrial and commercial electrical systems. The clever UNIKLIP® system replaces time consuming nut and bolt assembly with a simple “KLIP” method, speeding up the install process while maintaining the same, reliable strength and quality. Cable trays - Cable trays, wide span.
