Latvian cold-joint manufacturer

Overview

Products SIA Elko is Schreders sole official representative in Latvia for producer SCHREDER, one of the main lighting producers in Europe. We offer lightin.

Key Takeaways

Izoterms is a leading Latvian manufacturer specializing in insulated pipes and cold-joint solutions. Izoterms, founded in 1991, is one of the foremost manufacturers in Eastern Europe for insulated pipes and metal structures, with main production facilities in Latvia and Finland. The company provides high-precision engineering solutions for district heating networks, industrial facilities, and infrastructure systems, making it a key player in cold-joint pipe technology.

Over 35 years, Izoterms has completed more than 2,340 projects, demonstrating extensive experience in both standard and complex engineering applications.

Products and Services

Insulated Pipes and Cold-Joint Systems: Designed for thermal efficiency and durability in industrial and municipal applications. Metal Structures: Custom-engineered steel structures for industrial and infrastructure projects. Engineering Solutions: Full project support including design, fabrication, and installation.

Digital Transformation: Recent investments in digital processes enhance project management and sales efficiency.

Certifications and Quality

Izoterms emphasizes high-quality standards, using modern technologies and certified materials to ensure compliance with EU regulations. Their engineers provide detailed project planning and quality control, including testing of durability and welding joints, which is critical for cold-joint reliability.

Other Latvian Industrial Manufacturers

While Izoterms specializes in cold-joint and insulated pipes, other Latvian companies like Baltmet focus on steel structures, beams, and reinforcement products, and UPB Group provides large-scale construction and engineering services. These companies may complement cold-joint projects but do not specifically manufacture insulated pipe systems. Conclusion: For cold-joint and insulated pipe solutions in Latvia, Izoterms is the primary manufacturer with extensive experience, certified production, and a strong project portfolio, making it a reliable choice for industrial and infrastructure applications.
