Liquid-cooled exchanger upgraded version

Overview

The new Giant F features enhanced corrosion resistance, improved ergonomics, upgraded materials and new options for demanding cooling applications.

Article Content

Giant F Upgrade

The new Giant F features enhanced corrosion resistance, improved ergonomics, upgraded materials and new options for demanding cooling applications.

Audi Supercharged 3.0T Heat Exchanger Upgrade Guide: B8, B8.5,

Both engine families use the same liquid-cooled charge air cooling architecture and the same front-mount heat exchanger circuit. The CAP heat exchanger fits and upgrades both.

AWS''s New Liquid Cooling Solution Rattled the Market—But Is It Truly ...

AWS''s In-Row Heat Exchanger (IRHX) is a custom-built liquid cooling system designed for its most powerful AI servers—system that initially spooked infrastructure investors, but may ultimately

Upgraded Active Rear Door Heat Exchanger | ServerCool

© 2026 METRA FIBER MARKET - All rights reserved

Nortek Global HVAC has introduced the ADHX 35-6B, a 35kW Active Rear Door Heat Exchanger (ADHX) to its ServerCool data center liquid cooling product line.

Liquid cooling heat exchanger units

At the 2024 Open Compute Project (OPC) Global Summit, we showcased our advanced liquid cooling heat exchanger units (HXUs), designed to support next-generation GPUs and AI accelerators from

Rack-Scale Liquid Cooling Solutions | Supermicro

Linus heads to the roof to see how Supermicro is transforming data center efficiency with their complete liquid cooling solutions, offering everything from cold plates to cooling towers, with capacity to deploy

Upgrade legacy data centers for AI workloads with RDHx liquid cooling

For multiple racks of accelerated AI compute fitted with RDHxs, it convenient to add a liquid-to-liquid coolant distribution unit (CDU) either in each individual rack, or a larger CDU

Heat exchangers | Eaton

Optimize the performance of your liquid cooling system with the best-fit liquid heat exchangers from Eaton. Our liquid heat exchanger design expertise paired with

DCX Liquid Cooling Systems Announces New 8MW Coolant

The Facility Coolant Distribution Unit—the new generation of liquid cooling for hyperscale data centers.

Cooling Environments/Door Heat Exchanger

RDHX systems are designed to enhance cooling efficiency by utilizing liquid cooling technology to manage the thermal load of high-density IT equipment, thereby improving energy efficiency and

Your golden ticket to liquid cooling – enter through the rear door

Stefan Djuranec, nVent''s global product manager, DNS cooling, has a better idea. We caught up with him to talk about the advantages of rear door heat exchangers (RDHX) as a near plug

Upgrade strategy of commercial liquid-cooled battery thermal

This paper presented an upgrade strategy for commercial bottom liquid cooling systems using a novel flexible composite phase change material (FCPCM). The thermal performance of the

How Delta''s Liquid-to-Air Cooling Systems with Side Car Heat Exchanger ...

© 2026 METRA FIBER MARKET - All rights reserved

Delta''s Liquid-to-Air Cooling Systems (L2A) is an optimal upgrade, featuring a closed-loop design that avoids floor alterations or extra piping, offering a cost-effective solution for growing needs.

Exploring Liquid Cooling: The Future of Data Center

Discover how liquid cooling and other emerging technologies are revolutionizing data center cooling efficiency and sustainability. Dive into the

Air Cooler Design & Sizing Guide for Engineers | Altex

Learn how to size air-cooled heat exchangers with precision. Includes tips on air cooler design calculation and using sizing calculators effectively.

DESIGNING ENHANCED AIR COOLED HEAT EXCHANGERS

This visit will include demonstrations of how to correctly install hiTRAN Thermal Systems into air-cooled heat exchangers, including information on how to use the specialist tools such as our re-sizing dies

A90/91 Toyota Supra & BMW G-Series High

After six months of development and testing with some of the best Supra tuners across the world, CSF is proud to announce its new high

Liquid cooling: the future of data center architecture and

Designing liquid-ready solutions for tomorrow''s data centers New builds and modernisations are increasingly designed as liquid-ready, allowing
