Key Takeaways

An 8-core ODF patch panel is a compact fiber optic distribution unit designed for wall-mount installation, supporting SC/UPC adapters and pigtail connections for efficient fiber management.

Key Features

Port Capacity: Supports 8 fiber cores, typically with SC/UPC adapters and pigtails pre-installed for easy termination and connection. Design: Wall-mountable, lightweight, and compact, suitable for residential, FTTH, or small telecommunication setups. Material: Often made from aluminum or cold-rolled steel with powder coating for durability and protection against environmental factors.

Fiber Management: Provides secure storage, splicing, and protection for fiber cables and pigtails, ensuring organized routing and minimal signal loss. Installation: Can be mounted on walls or poles, with slide-out or modular adaptor panels for easy inspection, testing, and maintenance. Applications: Ideal for CATV, telecommunication equipment rooms, network rooms, and FTTH deployments.

Manufacturer Options

Powtech: Offers wall-mount 8-port fiber optical patch panels with modular adaptor panels, epoxy-coated aluminum housing, and fast delivery options.

N Fiber: Provides mini ODF 8-port panels optimized for FTTH, with easy installation and fiber protection features.

Fiber

Origin: Supplies 8-core SC/UPC patch panels with pre-installed pigtails, customizable specifications, and sample availability for testing. Alibaba Suppliers: Multiple manufacturers offer 8-core fiber patch panels at competitive prices, suitable for bulk orders and industrial applications.

Considerations for Selection

Connector Type: Ensure compatibility with SC/UPC, LC, or other required connectors. Environment: Choose panels with appropriate housing for indoor or outdoor use. Expansion: Consider modular designs if future network growth is anticipated.

Compliance: Verify adherence to TIA/EIA or ISO/IEC standards for fiber optic installations. An 8-core ODF patch panel provides a reliable, organized, and scalable solution for small to medium fiber optic networks, combining ease of installation with secure fiber management.

8 Cores Fibers Mini Small Compact Wall Mount Fiber Optic Patch

Product Description 8 Fibers Mini Small Compact Wall Mount Fiber Optic Patch Panel ODF Termination Box ... Description The equipment is used as a termination point for the feeder cable to connect with

FC 8 Core ODF Optical Distribution Frame, Wall

© 2026 METRA FIBER MARKET - All rights reserved

Quality Fiber Optic Distribution Box manufacturers & exporter - buy FC 8 Core ODF Optical Distribution Frame, Wall Mounted Fiber Optic Terminal Box from China

8 Core Mini ODF FTTH/FTTB Fiber Optic Termination Box

ODF can protect the optical fiber core and pigtail. It can be assembled separately into an optical fiber distribution frame, or it can be installed in the same cabinet / frame with digital distribution unit and

ODF 8-Core Fiber Optic Patch Panel

This 8 Cores Patch Panel is designed to optimize connectivity and ensure smooth transmission of data. The Optical Distribution Frame (ODF) provides a secure and organized platform for managing fiber

Fiber Optic Patch Panel | ODF Optical Distribution Frame (Rack

Streamline your fiber connectivity with our premium Fiber Optic Patch Panels and ODF systems. Designed for reliability and ease of use, our rack-mount and wall-mount solutions provide the perfect

Wallmount Type 8 Port Fiber Optical Patch Panel ODF

We are ODF manufacture and supplier, provide Wallmount Type 8 Port Fiber Optical Patch Panel ODF Distribution on sale,factory price.

Fiber Cabinet Supplier,Fiber Optic Hub Box,Fiber Waterproof Box ...

SINDA''s self-produced fiber optical patch panel,fiber terminal box, fiber distribution box, fiber enclosure box, ODF, cabinet, are widely used by customers in FTTH field. Our products comply with

ODF Fiber Optic Patch Panel, ODF Unit Box Manufacturer/Supplier

UnitekFiber, a professional manufacturer of fiber optic patch panel, can provide high quality rack mount fiber patch panel, wall mount fiber optic patch panel, sliding type ODF and fixed type ODF and so on.

ODF Patch Panel

Description: ODF(Optical Distribution Frame) patch panels are designed to provide a high density 19″ rack-mountable solution for next-generation fiber networks, it is used as terminal equipment of fiber

Fiber Patch Panel 8 Port Wall Mount Mini ODF

The 8-Port Wall Mount Mini ODF Fiber Patch Panel, lightweight and compact, is perfect for FTTH applications. It securely connects and protects fiber cables and pigtails, suitable for residential

4 Port 6 Port 8 Port 12 Port Din Rail Patch Panel Fiber

DIN Rail Patch Panel provide compact, durable solutions for industrial fiber distribution and termination, supporting SC and LC connections.

Quality Fiber Optic Patch Panel & Enclosure & Fiber Patch Cables ...

China leading provider of Fiber Optic Patch Panel & Enclosure and Fiber Patch Cables, Hunan Twilight Optic Technology Co., Limited is Fiber Patch Cables factory.

8 Cores Fibers Mini Small Compact Wall Mount Fiber Optic Patch Panel ...

8 Cores Fibers Mini Small Compact Wall Mount Fiber Optic Patch Panel ODF Termination Box Small Size, Find Details and Price about Optical Distribution Frame Drawer Type Fiber Patch Panel from 8

4 port 6 port 8 port mini ODF wall mount optical fiber patch panel

4 port 6 port 8 port mini ODF wall mount optical fiber patch panel The material is engineering plastic of high quality and it can be used for indoor,outdoor. Rugged and reliable structure. It is applicable for

ODF & Patch Panel

Modular design: The frame is comprised of optical distribution module, fiber splice tray module, rear horizontal fiber support groove. The distribution modules have the options of 72 cores and 96 core

Fiber Optical Distribution Box

An optical distribution frame (ODF) is a frame used to provide cable interconnections between communication facilities, which can integrate fibre splicing, fibre
