New Handheld Light Source for Oil and Petrochemical Industry

Overview

Intrinsically Safe Torch | ATEX Zone 0 Lighting – Peli TorchesFrom compact inspection lights to rechargeable, high-output models, our range of ATEX torches.

Key Takeaways

Intrinsically safe, ATEX-certified handheld lights are available for hazardous petrochemical environments, with pricing available directly from suppliers. Product Options1.

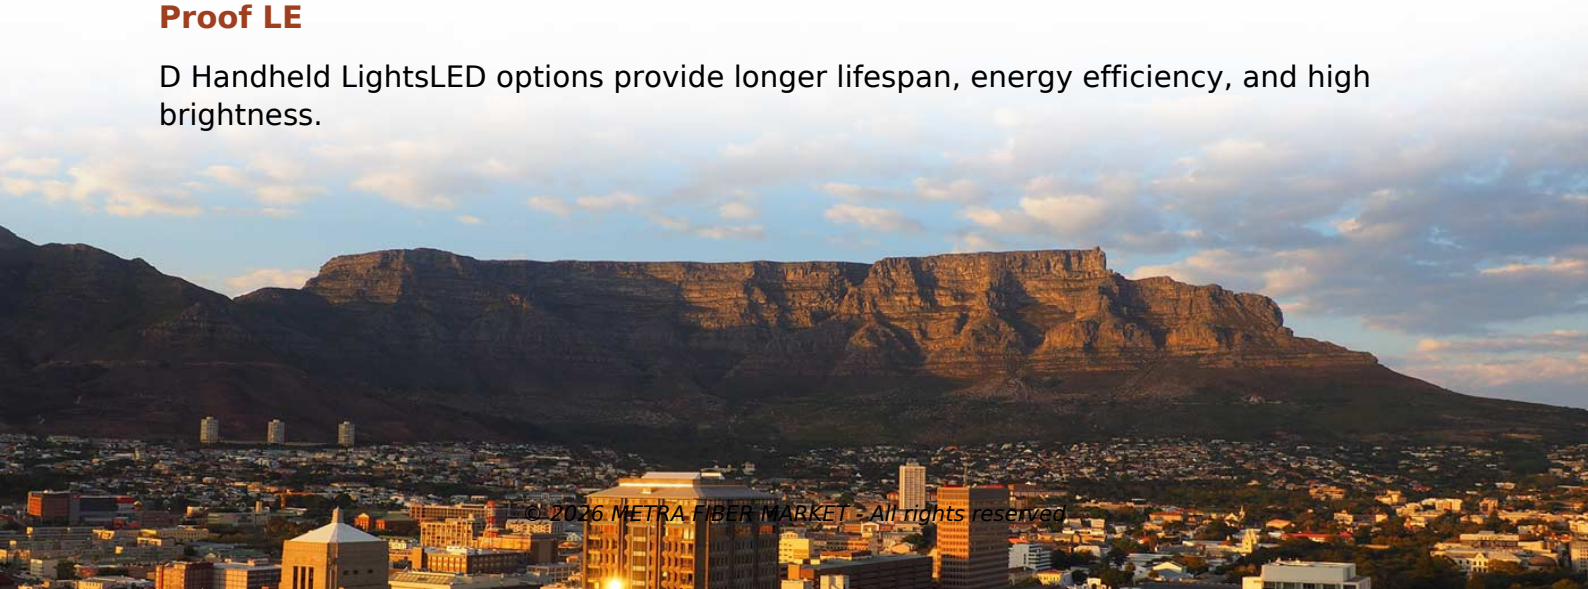

ATEX and Intrinsically Safe Torches

Suppliers like Atex Global Ltd offer a range of handheld lights including pen lights, mini torches, right-angle safety torches, hand lamps, and head torches specifically designed for petrochemical and mining industries. These lights are certified for hazardous zones, ensuring safe operation in environments with flammable gases, vapors, or dust. 2.

Explosion-

Proof LE

D Handheld LightsLED options provide longer lifespan, energy efficiency, and high brightness.

Many LE

D handheld lights are suitable for Zone 1, 2, 21, or 22 hazardous areas, compliant with ATEX or IECEx standards. Features often include IP65/IP66 ratings, temperature resistance, and durable construction for harsh industrial conditions. 3.

Halogen Petrochemical LightsHalogen-based handheld lights are also available, offering bright, focused illumination and high color accuracy. They are suitable for short-term or portable applications, though LED alternatives are generally more energy-efficient and longer-lasting.

Key Considerations for Selection

Certification: Ensure ATEX, IECEx, or UL 844 compliance for your specific hazardous zone. Durability: Look for IP-rated, temperature-resistant, and impact-resistant designs. Light Output: Consider lumens, beam focus, and battery life for operational needs.

Power Source: Rechargeable lithium-ion batteries are common for LED models, while some halogen lights may use replaceable bulbs. Obtaining a Price QuotePricing varies based on light type, certification, and features. To get a quote, contact suppliers directly: Atex Global Ltd: Browse their ATEX torches and request a quote via their website.

Vocare-

Ledlight: Offers explosion-proof LED handheld lights suitable for petrochemical zones. Accio Petrochemical Lighting: Provides a range of certified LED and halogen lights for hazardous areas. Galaxy Lighting Supply: Specializes in LED oil rig and refinery lighting, including handheld options.

By specifying your hazardous zone, preferred light type (LED or halogen), and required features, suppliers can provide a tailored price quote and delivery options.
