New Zealand erects fiber optic cable

Overview

We celebrated the completion of New Zealand's world leading, UFB fibre optic network on time and under budget to reach 87 percent of population. There are now three international submarine cable connecting New Zealand to the world. Intelia, the New Caledonian company behind Te Waipounamu, was founded by Rémi Galasso who led. We received a pre-activity notification from ASN Marine to conduct cable-laying activities within the EEZ, connecting New Zealand with Australia, the Pacific, including Fiji, Tokelau, Samoa and Kiribati, and the United States. ASN Marine will conduct the initial laying of the fibre cable in the. One New Zealand is deepening its focus on delivering a better-connected Aotearoa New Zealand by announcing it will be launching EonFibre later this year, a dedicated fibre business that is aimed at supporting wholesale customers including hyperscalers.
