Key Takeaways

Leading manufacturers in North Africa offer corrosion-resistant cable trays in stainless steel, galvanized steel, and powder-coated finishes, suitable for industrial and infrastructure projects.

Key Manufacturers

El Sewedy Electric (Egypt) – A prominent Egyptian manufacturer serving North Africa and the Middle East, El Sewedy Electric produces cable trays, electrical enclosures, and accessories for energy, infrastructure, and telecommunications projects. Their products include corrosion-resistant options suitable for harsh environments. Alfa Cables (Egypt) – One of Egypt's largest electrical component manufacturers, Alfa Cables offers cable trays and related systems for industrial and infrastructure applications across Africa.

They provide stainless steel and coated trays for enhanced durability. Hutaib Electrical (South Africa, serving Africa) – Hutaib Electrical manufactures a wide range of cable trays, including ladder, perforated, basket, and raceway types. They offer finishes such as GI hot-dip, pre-galvanized, powder-coated, and stainless steel (SS-202/304/316), ensuring corrosion resistance for industrial and commercial projects.

Ned-

Tech (Nigeria, distribution across Africa) – Ned-Tech supplies perforated, ladder, and solid-bottom cable trays made from galvanized steel, stainless steel, and aluminum, providing corrosion resistance and durability for data centers, industrial facilities, and telecom installations in North Africa. Brilltech Engineers (Africa-wide) – Brilltech offers high-quality cable trays in galvanized steel, stainless steel, and fiberglass. Their perforated trays enhance airflow and prevent overheating, while their products comply with industry standards for safety and corrosion resistance.

Product Types and Features

Ladder Cable Trays – Ideal for heavy-duty industrial applications, providing strength and ventilation. Perforated Cable Trays – Promote airflow, reduce overheating, and prevent corrosion. Basket and Wire Mesh Trays – Lightweight, flexible, and suitable for IT and telecom installations.

Raceway and Solid-

Bottom Trays – Protect cables from dust, moisture, and environmental hazards.

Corrosion-

Resistant Finishes – Stainless steel (SS-304/316), hot-dip galvanized, pre-galvanized, and powder-coated options.

Considerations for North Africa

Climate Adaptation – Manufacturers provide trays resistant to arid desert conditions, coastal humidity, and industrial environments. Standards Compliance – Many suppliers adhere to international standards (e.g., IS-277, ISO) to ensure durability and safety. Technical Support – Leading manufacturers offer installation guidance, custom tray fabrication, and accessories like bends, elbows, tees, and reducers.

For North African projects requiring long-lasting, corrosion-resistant cable management, these manufacturers provide reliable solutions with regional distribution and technical expertise.
