Optical cable pre-twisted wire clamp equipment

Overview

Traditional fiber optic cable clamps rely on metal buckles for compression, which are prone to loosening due to thermal expansion and contraction. in contrast, this pre-twisted strand tension clamp utilizes a spiral wrapping method, evenly distributing stress across the entire. Purpose:Pre twisted suspension clamp is a connecting hardware for hanging ADSS optical cable on the transmission line tower. The clamp can reduce the static stress of the optical cable at the suspension point, improve the anti vibration ability of the optical cable and suppress the dynamic stress. Composition: Each set of pre-twisted wire tension clamp components includes: inner stranded wire, outer stranded wire, and pull ring. Users can configure and purchase other connectors according to design requirements. The preformed tension clamp is formed by. The function of ADSS small span tension clamp is similar to that of tension clamp; Mainly used for poles and towers with short spans of 50-200 meters, such as corners, tension, terminals, etc. it adopts high-strength pre-twisted wire structure and has a tensile strength of 36kn.

Hardware for ADSS Cable

Composition: Each set of pre-twisted wire tension clamp components includes: inner stranded wire, outer stranded wire, and pull ring. Users can configure and purchase other connectors according to

Suspension Clamp For Ab Cable

OPGW tension clamps are used for connecting optical cable lines with terminal towers, tight tension tower and intersection angle tower or pole, etc, and preformed aluminum clad steel dead end protect

ADSS Optical Cable Pre Twisted Wire, Cable Tension Clamp

It is not only suitable for aerial optical cables, but also for anchoring and installation of aerial wires, stay wires, etc., as well as for use as traction clamps in optical cable construction.

A must buy for 25 years! adss optical cable tension clamp pit ...

The latest adss optical cable tension clamp in 25 years is specially designed for 100m pitches. it adopts high-strength pre-twisted wire structure and has a tensile strength of 36kn. it is

Best quality Pre Twisted Suspension Clamp-Cytech Fiber

The suspension cable clamp, through the combination of inner and outer pre twisted wires, can effectively protect the optical cable, avoid bending stress, and provide

24-Core Optical Cable Suspension String Adss Fiber Optic ...

The suspension clamps sold by our company are suitable for adss optical cables and opgw optical cables. the suspension head is made of aluminum, the lining is made of rubber, and the pre-twisted

ADSS/OPGW Optical Cable Suspension Clamp Assembly

This product is a combination of wire clip, equipped with two sets of aluminum splint, two sets of rubber fixture, a set of outer pre-twisted wire and a set of wire protectors pre-twisted wire.

Strain Clamps Are Classified According To Their Use

Cable Lugs Small tension wedge-shaped strain clamp for ADSS optical cable Small tension strain clamp for ADSS optical cable Medium tension

Pre-twisted type optical cable strain clamp

© 2026 METRA FIBER MARKET - All rights reserved

With the adoption of a double-layer pre-twisted wire reverse acting spiral winding structure, when an installation part is stressed, rotating torques generated by inner and outer layers of twisted wires are

Pre-Twisted OPGW Clamp

1. Purpose of Pre-Twisted OPGW Clamps The OPGW (Optical Ground Wire) contains communication fibers that are prone to damage during

CN202003070U

The pre-twisted strain clamp increases contact area between the preformed armor rods and the optical cable, and protects the optical cable, with uniform distribution and no stress concentration.

[Hot Item] Optical Cable Pre Twisted Wire Vertical Clamp

Optical Cable Pre Twisted Wire Vertical Clamp, Find Details and Price about Helical Suspension Clamp and Optical Cable Pre Twisted Wire Vertical Clamp from

Ground wire wedge clamps and pre-twisted clamps

2) The material combination of the pre-twisted cable clamp and the ground wire The pre-twisted cable clamp is equivalent to adding a layer of metal protective strip outside the ground wire. If

The Ultimate Guide To Dead End Clamps

Spiral Pre-twisted wire clamp: This type of clamp is often used for optical fiber and communication lines, and it provides a uniform grip on the cable

Pre Twisted Suspension Clamp

Purpose:Pre twisted suspension clamp is a connecting hardware for hanging ADSS optical cable on the transmission line tower. The clamp can reduce the static stress of the optical cable at the suspension

Fiber Optic Preformed Tangent Suspension Clamp

Tangent Support 16mm ADSS Product advantages: Adss pre-twisted wire suspension clamps are especially used for overhead self-helping adss optical cable lines for hanging optical cables, similar

ADSS Optical Cable Pre Twisted Wire, Cable Tension Clamp

The transmission of axial tension increases the contact area with the optical cable, resulting in uniform stress distribution and no stress concentration points. Characteristics of the strain clamp: 1. It has a

Buy In Bulk Twisted Wire Clamp 1k+ | Alibaba

© 2026 METRA FIBER MARKET - All rights reserved

Shop high-quality twisted wire clamps for reliable optical cable protection. Pre-twisted tension clamps and anti-twist wire rope grippers for secure installation.
