Optical module for short distances up to 60km

Overview

This SFP module covers most Gigabit Ethernet fiber optic applications for single strand, single mode fiber 9/125um on distances up to 60Km, using Tx:1490nm/Rx:1550nm. Transceiver has a single LC connector and must be matched with a B type to operate properly. High-performance TTL to Fiber Optic Module The TTL Optical Transceiver Module enables reliable data transmission between drones and ground stations using FC fiber interface and 1310nm/1550nm wavelength for stable long-distance communication. Extended Communication Range up to 60KM Supports. VC-40GQSFP-ZR4-60 are designed for 80km optical communication applications. The design is compliant to 40GBASE-ER4 of the IEEE P802. With support for transmission distances of up to 60 kilometers, this module. Maximize your FTTx coverage with the GPON OLT SFP Transceiver (Class C+, 60km). Engineered for ultra-long reach applications, this high-power module supports 2.

VC-40GQSFP-ZR4-60 40G QSFP+ZR4 CWDM4 60KM

The VC-40GQSFP-ZR4-60 is a transceiver module designed for 60km optical communication applications. The design is compliant to 40GBASE-ER4 of the

20KM 40KM 60KM TTL Optical Transceiver Module DC

With support for transmission distances of up to 60 kilometers, this module ensures that your drone remains connected and responsive, even when operating far

60 km – Fosco Connect

SFP-1060-WA SFP+ 10G BiDirectional optical module, single strand Tx:1270/Rx:1330nm and Tx:1330/Rx:1270nm, 60km $ 260.00

GPON OLT SFP Transceiver | Class C+ | 60km Ultra-Long Reach | 2.5G

Engineered for ultra-long reach applications, this high-power module supports 2.5G/1.25G speeds and distances up to 60km. Fully compatible with Huawei, ZTE, and Nokia OLTs for rural and long-haul

40GBASE-ZR4-Lite 40G 60km QSFP Factory

40GBASE-ZR4-Lite 40G 60km QSFP+ is designed for transmitting data over long distances of up to 60km with reduced power consumption.

20km 40km 60km 100km Ttl Optical Transceiver Module Optical

Our drone optical transceiver accessories are equipped with state - of - the - art optical modules. These modules are designed to provide ultra - high - speed data transmission, ensuring seamless

Amazon : ROBOfiber SFP (miniGBIC) BiDirectional Optical

This SFP module covers most Gigabit Ethernet fiber optic applications for single strand, single mode fiber 9/125um on distances up to 60Km, using Tx:1490nm/Rx:1550nm. Transceiver has

FPV Drone Fiber Optic Image Data Transmission System 5–60km

Using optical fiber as the transmission medium, the link is immune to electromagnetic interference and supports communication from 5–60km with high reliability and security.

40G QSFP+ ER4 60KM LC Optical Transceiver

It achieves an aggregate 40Gbps data rate, supporting transmission distances up to 60 kilometers. Compliant with 40GBASE-ER4 Lite specifications.

SFP Distance Explained: Real-World Range, Limits, and Optics

Understand SFP distance, fiber optic range, and real-world limits of SR/LR modules. Learn how wavelength, fiber type, and optics affect performance.

40/60KM TTL Optical Transceiver Module for Drones

The platform and merchants assume no related legal liability. High-performance TTL to Fiber Optic Module The 40/60 KM Sky/Earth TTL Optical Transceiver Module

What is the range of SFP in KM？

The range of an SFP (Small Form-Factor Pluggable) module can vary depending on the specific type and intended use of the module. SFP modules are commonly used for both multimode

GPON OLT SFP Transceiver | Class C+ | 60km Ultra-Long Reach | 2.5G

The GPON OLT SFP Transceiver (Class C+, 60km) is an industrial-grade optical module engineered for extreme-distance Passive Optical Networks. Surpassing the standard 20km limit of typical GPON

100G QSFP28 ZR4 EML LWDM4 60km/80km Optical Transceiver

GIGALIGHT 100G QSFP28 ZR4 optical transceiver module is used for long-distance transmission in the field of data communication or telecom, and is compliant with 100G Ethernet transmission protocol,

Reach Further, Faster: Your Ultimate Guide to Long-Range 10G Optical ...

Long-range 10G optical modules enable high-speed data over distances up to 80km. Learn about types, specs, compatibility, and choosing the right module.

VOSCOM 12G-SDI over Fiber Datasheet

12G-SDI Fiber Optic Extender is an excellent choice for transporting SMPTE 2082 (12G-SDI), SMPTE 2081(6G-SDI), SMPTE 424M (3G-SDI), SMPTE 292M (HD-SDI), SMPTE 259M (SD-SDI), DVB-ASI

Wavelength and Transmission Distance of Optical Transceiver Modules

Under 1550nm wavelength, 100Mbps and 1Gbps optical transceiver modules can transmit up to 160km, and 10Gbps optical transceiver modules can transmit up to 80km. (For distances greater than or

Optical Fiber Image Data Module Relay Extender

The Optical Fiber Image Data Module Relay Extender Module is a game-changer for those who demand reliable and long-distance signal transmission. Designed to
