Price of DIY Outdoor Distribution Box Solution

Overview

Diydeg 4 Way Distribution Box, 4 Way Distribution Protection Box. Enhanced Security and Efficiency: Upgraded outdoor circuit breaker box, with full slot.

Key Takeaways

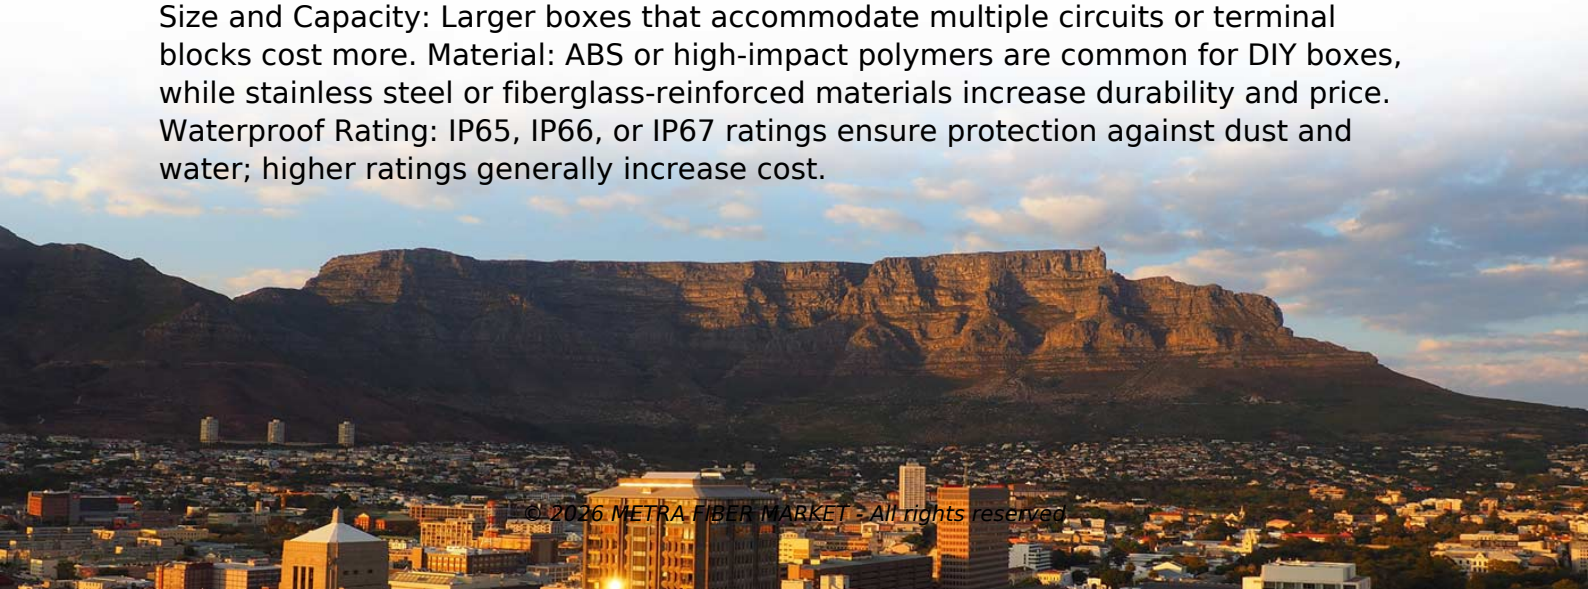

DIY outdoor distribution boxes typically range from $15 to $60 depending on size, material, and waterproof rating.

Typical Price Range

For small to medium DIY outdoor distribution boxes, prices generally fall between $15 and $30 for compact plastic enclosures (e.g., 115x90x55mm, IP67 rated) suitable for garden wiring, solar panels, or outdoor lighting projects. Larger or more robust boxes with higher durability, additional accessories, or IP65/IP66 ratings can cost $40 to $60 or more. Commercial-grade or industrial outdoor boxes with metal construction, arc-resistant barriers, or advanced features may exceed this range.

Factors Affecting Price

Size and Capacity: Larger boxes that accommodate multiple circuits or terminal blocks cost more. Material: ABS or high-impact polymers are common for DIY boxes, while stainless steel or fiberglass-reinforced materials increase durability and price. Waterproof Rating: IP65, IP66, or IP67 ratings ensure protection against dust and water; higher ratings generally increase cost.

Accessories: Some kits include cable connectors, clamps, or mounting hardware, which can add $5–$10 to the total price. Customization: DIY boxes allow internal layout adjustments, surge protection integration, or grounding terminals, which may influence cost.

Where to Buy

Online Retailers: Amazon, AliExpress, and Alibaba offer a wide range of DIY outdoor distribution boxes with varying sizes, IP ratings, and prices. Local Electrical Suppliers: Hardware stores or electrical supply shops may carry standard outdoor boxes, often at slightly higher prices due to shipping and handling. In summary, for a typical DIY outdoor project, you can expect to spend $15–$60 depending on the size, waterproof rating, and included accessories, with higher-end or industrial-grade boxes costing more.
