

Price of Half-Side T-Connect for Cable Trays

Overview

Our high-quality T-piece connectors for cable trays provide stable, horizontal branches in every cable support system.

Key Takeaways

The price of a Half-Side T-Connect for cable trays typically ranges from \$15 to \$50 per unit, depending on material, size, and supplier. Overview Half-Side T-Connects, also known as T-piece connectors, are used to create horizontal branches in cable tray systems, allowing three trays to connect securely and maintain organized cable routing. They are commonly made from galvanized steel, stainless steel, or electro-galvanized carbon steel, offering corrosion resistance and mechanical strength suitable for industrial, commercial, and vehicle applications.

Factors Affecting Price

Material: Galvanized steel is generally less expensive than stainless steel, while electro-galvanized finishes may add a small premium. **Size and Compatibility:** Larger T-connects for wider cable trays or heavy-duty industrial trays cost more. Compatibility with ladder, wire mesh, or basket trays can also influence pricing.

Supplier and Quantity: Bulk purchases from distributors like McMaster-Carr, RS Online, or Amazon can reduce per-unit cost, while single-unit purchases may be higher. **Certifications and Standards:** Connectors meeting fire-resistance standards (e.g., DIN 4102-12) or CE certification may carry a higher price due to compliance requirements.

Typical Price Range

Small to medium galvanized steel T-connects: \$15–\$25 per unit
Heavy-duty or stainless steel T-connects: \$30–\$50 per unit
Bulk packs (e.g., 10–50 units): Often discounted, averaging \$12–\$40 per unit depending on material and size
Where to Buy
Ekabel24: Offers high-quality galvanized T-pieces suitable for industrial and commercial installations.
Site Pro 1: Provides horizontal T-junctions for multiple cable tray sections.
McMaster-Carr: Wide selection of cable tray components with same-day shipping options.

Amazon: Offers packs of wire mesh cable tray couplers and T-connects, convenient for smaller projects.

R

S Online: Supplies various cable tray connectors, including stainless steel and electro-galvanized options. For precise pricing, it is recommended to check the supplier's website or request a quote, as prices vary by material, size, and order quantity.
