Price of Indoor Optical Cable Low Voltage Box Outer Enclosure

Overview

Explore a wide range of enclosures designed for cable management and networking. Shop top-rated options for residential and commercial applications.

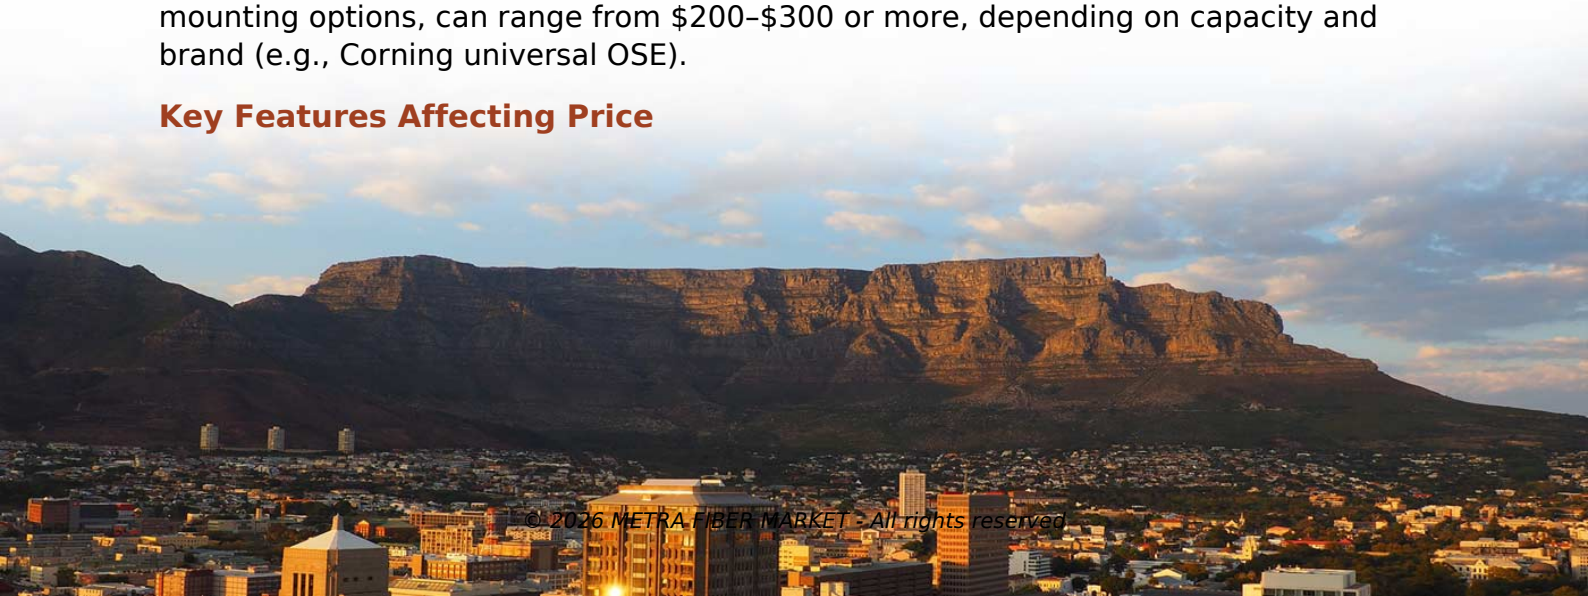

Key Takeaways

Indoor optical cable low voltage enclosures typically range from $20 to $300 depending on size, material, and mounting type.

Pricing Overview

Small indoor wall-mount enclosures for low-voltage or fiber optic cables generally start around $20–$50 for basic plastic or metal boxes suitable for residential or small office installations (Amazon listings for low-voltage enclosures show options in this range). Medium to large enclosures with enhanced features such as steel construction, hinged doors, and multiple cable entry points can cost $100–$200, offering better durability and cable management for commercial or multi-fiber installations. Rack-mount or universal optical splice enclosures designed for professional fiber optic networks, including adjustable backplates and multiple mounting options, can range from $200–$300 or more, depending on capacity and brand (e.g., Corning universal OSE).

Key Features Affecting Price

Material: Plastic enclosures are cheaper, while steel or powder-coated metal enclosures provide higher durability and fire resistance. Mounting Type: Wall-mount units are generally less expensive than rack-mount or slide-out enclosures. Capacity: Enclosures designed to hold multiple splices, splitters, or pre-terminated cables cost more due to larger size and additional internal hardware.

Environmental Rating: Indoor enclosures are less expensive than waterproof or NEMA-rated outdoor enclosures.

Where to Buy

Amazon: Offers a wide range of indoor low-voltage enclosures starting at $20, suitable for small-scale installations. Discount Low Voltage: Provides wall-mount and rack-mount fiber optic enclosures from brands like Dynacom, AFL, and Corning, with prices typically in the $100–$300 range. Platt Electric Supply: Offers steel and plastic enclosures with NEMA ratings and specialized fiber management features, suitable for commercial installations.

Corning: High-end universal optical splice enclosures for professional networks, priced around $200–$300 depending on configuration. For accurate pricing, it is recommended to check the supplier websites directly, as prices vary by size, brand, and quantity.
