Price of complete electrical distribution boxes in Bhutan

Overview

Find Verified Bhutan Electricity Meter And Distribution Box. Buy premium Bhutan Electricity Meter And Distribution Box Manufacturer in bulk from verified.

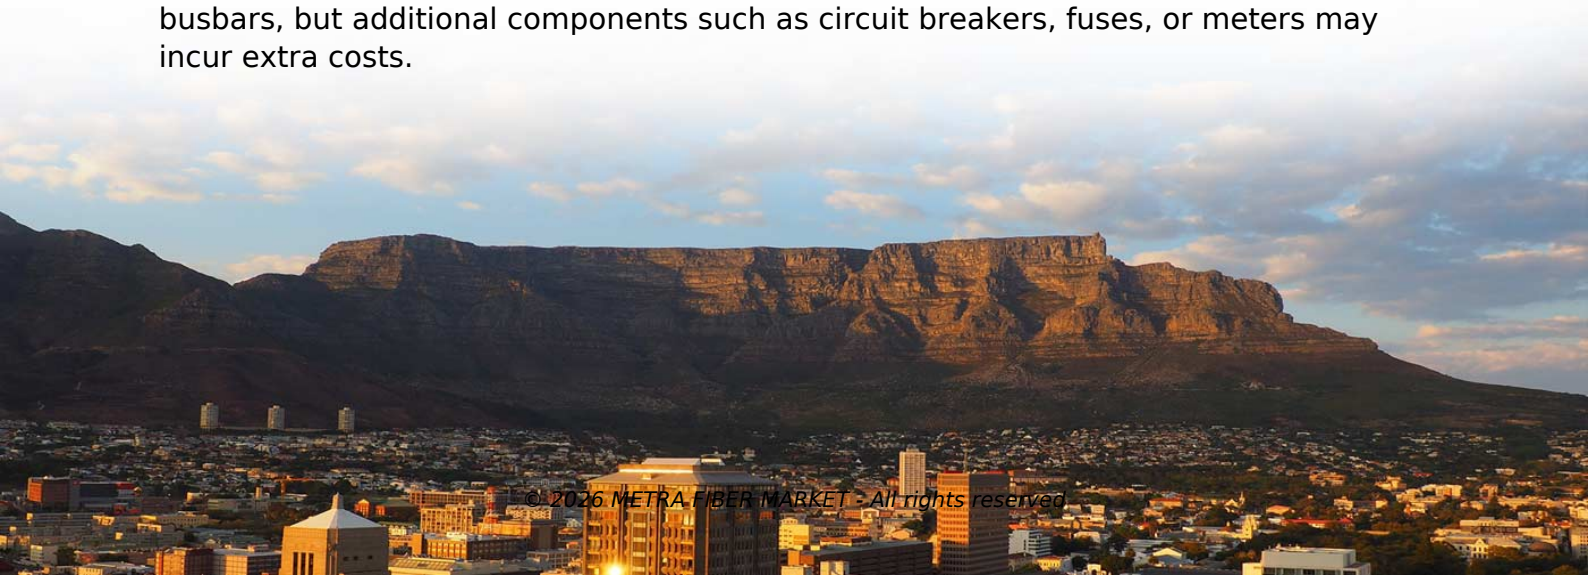

Key Takeaways

Electrical distribution boxes for construction sites in Bhutan typically range from Nu. 1,500 to Nu. 5,000 per unit, depending on type and capacity.

Overview of Pricing

According to the Bhutan Schedule of Rates (BSR) 2025, electrical distribution boxes are listed with suggestive average prices for construction projects. These rates are intended for reference in government and private construction contracts and may vary slightly in the open market. Small/Single-phase distribution boxes: Approximately Nu.

1,500–2,500 per unitMedium/Three-phase distribution boxes: Approximately Nu. 3,000–4,000 per unitLarge/Industrial-grade distribution boxes: Approximately Nu. 4,500–5,000 per unit These prices generally include the basic enclosure and internal busbars, but additional components such as circuit breakers, fuses, or meters may incur extra costs.

Supplier and Delivery Considerations

The Ministry of Information and Communications (MoIC) price list for FY 2025-2026 identifies suppliers for electrical items, including distribution boxes, and provides delivery schedules for goods manufactured outside Bhutan. When procuring, it is recommended to: Verify the supplier's certification and product qualityConfirm whether the price includes installation or only supplyCheck for energy efficiency or BEE rating compliance if applicablePractical AdviceUse the BSR rates as a guideline for budgeting, but confirm with local suppliers for the latest market prices. For large construction projects, consider bulk procurement to negotiate better rates.

Ensure that the distribution boxes meet safety standards and Bhutanese electrical regulations. By referencing the BSR and supplier price lists, construction planners in Bhutan can estimate costs accurately and plan procurement efficiently.
