Price of fireproof leather cover for distribution box

Overview

Shop high-quality fireproof distribution boxes for reliable electrical safety. Durable, waterproof, and suitable for various applications. Bulk orders welcome.

Key Takeaways

Fireproof covers for distribution boxes typically range from $50 to $300, depending on material, size, and fire rating.

Overview

Fireproof covers for electrical distribution boxes are designed to protect wiring and components from fire hazards. While leather is less common than steel, aluminum, fiberglass, or intumescent cloth, specialized fire-resistant leather or leather-like materials may be used for flexible protective covers. These covers are often combined with intumescent linings to expand and seal around heat sources during a fire, providing additional safety for domestic or industrial electrical units.

Price Range

Small household ECU covers with fireproof cloth or intumescent lining: approximately $50–$100. Medium to large industrial distribution box covers (steel, aluminum, or reinforced composites) can range from $150–$300 depending on size, fire rating, and supplier. Custom or specialized fireproof leather covers may cost more due to material sourcing and manufacturing complexity, potentially exceeding $300.

Purchasing Options

Online marketplaces like Alibaba offer a variety of fireproof distribution boxes and replacement covers, which can provide a reference for pricing and material options. Machinio lists used replacement covers for fireproof electrical distribution boxes, which may be a cost-effective alternative. Specialized fire protection suppliers such as Envirograf provide ECU fire protection systems with intumescent linings, which can be adapted to existing units.

Considerations

Verify fire resistance rating and compliance with local electrical and fire safety codes. Ensure the cover fits the specific dimensions of your distribution box. Consider durability and environmental factors, such as exposure to moisture or chemicals, if used in industrial settings.

In summary, while exact prices for fireproof leather covers are not widely listed, you can expect $50–$300 depending on size, material, and fire protection features, with custom options potentially costing more.
