Price of fireproof partition for cable trays

Overview

AF BAGS are intumescent and ablative fireproof pillows certified under EN 1366-3 for sealing up to EI 240 of cable tray penetrations.

Key Takeaways

Fireproof cable trays with built-in partitions range from approximately $0. 60/meter for basic options to $10/meter for high-performance fireproof solutions.

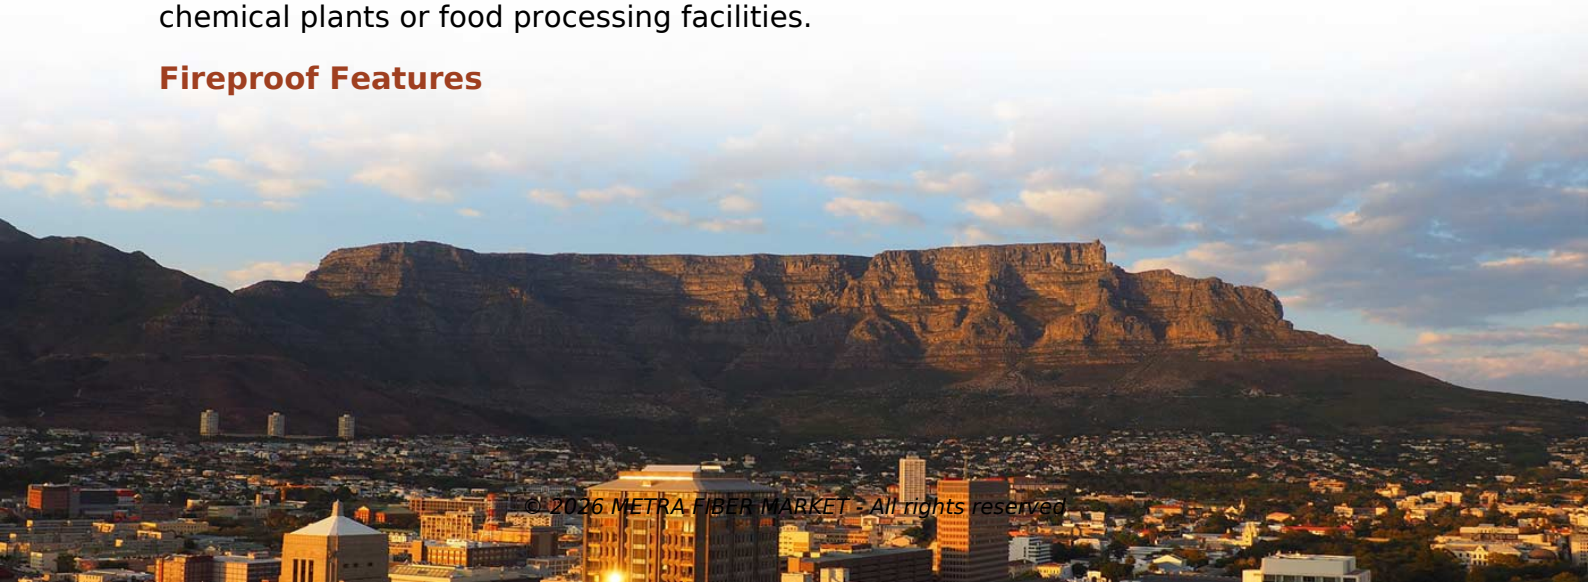

Pricing Overview

The cost of fireproof partitions in cable trays depends on material, fireproof rating, and supplier. Entry-level options, such as orange partition fireproof coating trays, start at $0. 60 per meter, suitable for small-scale or prototype projects.

Premium fireproof partitioned cable trays, designed for high-performance applications in industrial or sensitive environments, start at $10 per meter. Material ConsiderationsHot-dip galvanized steel: Common for general industrial use, offering corrosion resistance and durability. Powder-coated aluminum: Lightweight and corrosion-resistant, suitable for less demanding environments.

Stainless steel (304/316): Ideal for highly corrosive or hygienic environments, such as chemical plants or food processing facilities.

Fireproof Features

© 2026 METRA FIBER MARKET - All rights reserved

Fireproof partitions are designed to isolate fires, prevent fire spread, and protect cable integrity. Materials include fireproof boards, coatings, bags, and mud, each with trade-offs in weight, installation complexity, and heat dissipation. High-performance fireproof trays ensure compliance with safety standards and are often used in power plants, substations, hospitals, and industrial facilities.

Additional Factors Affecting Cost

Customization: Partition size, tray width, and modularity can increase price. Compliance certifications: EN61537 or equivalent certifications may raise costs but ensure regulatory compliance. Installation and maintenance: Some fireproof partitions are easier to install and maintain, which can affect total project cost.

Summary

For budgeting purposes, expect prices from $0. 60/meter for basic fireproof partition trays to $10/meter for high-performance, certified fireproof solutions. Material choice, fireproof rating, and supplier reliability are key factors influencing the final cost.
