Price of galvanized cable tray support arms in Australia

Overview

Cable Tray Accessories | Hangers, Brackets & Supports | RSBrowse the full RS Australia range of cable tray accessories online and order with fast, Australi.

Key Takeaways

Galvanized cable tray support arms in Australia typically range from AUD 20 to AUD 80 per unit, depending on size, load capacity, and galvanization type.

Pricing Overview

The cost of galvanized cable tray support arms varies based on several factors: Material and galvanization type: Pre-galvanised steel is generally less expensive than hot-dip galvanised steel, which offers higher corrosion resistance and longer service life. Size and load capacity: Larger arms designed to support heavier cable trays or longer spans cost more. Standard support arms for light to medium loads are usually at the lower end of the price range.

Supplier and brand: Australian suppliers such as EzyStrut, Burndy, and AGM Electrical offer competitive pricing, with premium brands or custom-fabricated arms costing more.

Typical Price Range

Small to medium support arms (for standard ladder or perforated trays): AUD 20–40 per arm. Heavy-duty or hot-dip galvanised arms (for industrial or outdoor use): AUD 50–80 per arm. Custom or specialized support arms for high-load or unusual installations may exceed AUD 100 per unit.

Additional Considerations

Bulk orders: Purchasing in larger quantities often reduces the per-unit cost. Accessories: Nuts, bolts, washers, and channel nuts are usually sold separately but are essential for installation. Installation environment: For corrosive or outdoor environments, hot-dip galvanised arms are recommended to prevent galvanic corrosion and extend service life.

For accurate pricing, it is advisable to contact local suppliers such as RS Australia, CNW Electrical, AGM Electrical, or EzyStrut with your project specifications, as prices can vary based on quantity, delivery, and customization requirements.
