Price of jumper wire optical module

Overview

Shop DigiKey''s large in-stock selection of Jumper Wire. View inventory, pricing and order now for same day shipping!

Key Takeaways

Optical jumper wires (fiber patch cords) typically range from $5 to $50 per unit, depending on type, length, and connector specifications.

Overview

Optical jumper wires, also known as fiber patch cords, are essential for connecting devices like switches, routers, servers, and transceivers in data and telecommunications networks. Prices vary widely based on several factors: Fiber Type: Single-mode jumpers (9–10 µm core) are generally more expensive than multimode jumpers (50–62. 5 µm core) due to their long-distance performance and lower signal attenuation.

Connector Type: Common connectors include LC, SC, ST, and MPO. Specialty connectors or high-precision polished connectors can increase cost. Length: Standard lengths range from 0.

5 meters to 10 meters or more. Longer cables typically cost more. Quality and Durability: Outdoor-rated, armored, or low-loss jumpers designed for harsh environments are priced higher.

Typical Price Ranges

Short multimode jumpers (1–3 meters): $5–$15 eachShort single-mode jumpers (1–3 meters): $10–$25 eachLonger or specialty jumpers (5–10 meters, armored, or low-loss): $20–$50 each Retailers like Amazon, Alibaba, and Pureoptics offer a wide selection, but exact pricing often requires checking individual product listings or creating an account for a quote.

Buying Tips

Compare prices across suppliers to account for shipping and bulk discounts. Verify the fiber type and connector compatibility with your network equipment. Consider pre-terminated and tested jumpers for critical applications to ensure reliability.

By understanding these factors, you can select the right optical jumper wire that balances performance and cost for your network setup.
