# Price of outdoor optical cables for relocation projects

## Overview

Median costs in 2025 were $18 per foot for underground builds and $8 per foot for aerial builds, with significant variation based on terrain, density, and construction methods, according to the Fiber Broadband Association. Buyers typically pay for fiber optic cable by length, fiber type, and installation complexity. This guide presents ranges in USD and practical price estimates to help. Prices typically range from about $0. For planning, consider a project-wide range of $1,000 to $30,000+ for several hundred to several thousand feet, with per-foot costs. Understanding the costs of fiber optic cable is a top concern for businesses planning network infrastructure upgrades. Whether you're expanding your data center, connecting multiple buildings, or future-proofing your connectivity, accurate pricing information helps you budget effectively. Multiple configurations for long-distance transmission.
