Price of rack-mount network cabinets

Overview

Learn the 2025 price range, load capacity, sizes, and material options for network cabinets. Compare 42U, 45U, 19-inch racks, and get wholesale factory pricing, OEM service, and full specifications.

Key Takeaways

Rack-mount network cabinets typically range from $100 for small wall-mounted units to over $2,000 for large, fully enclosed server racks. Price Ranges by Type and SizeWall-Mount Cabinets (6U–12U): Small cabinets suitable for home labs or small offices generally cost $100–$300. These often include locking doors, side panels, and limited weight capacity (around 200 lbs) (Amazon).

Enclosed Floor-

Standing Cabinets (24U–48U): Larger cabinets for corporate or data center use range from $500–$2,000+, depending on depth, airflow features, and security options (Newegg, eBay).

Open-

Frame Racks: Typically less expensive, starting around $150–$400, these provide easy access and optimal airflow but offer less dust and security protection (eBay).

Factors Affecting Price

Rack Units (U): Each U is 1. 75 inches in height. More U means higher cost due to increased material and capacity (Newegg).

Depth and Width: Cabinets range from 600mm to 1200mm in depth. Deeper racks accommodate larger servers and allow better cable management, increasing price (Newegg). Enclosure Type: Enclosed racks with lockable doors, perforated panels, or glass doors cost more than open-frame or two-post racks (eBay).

Cooling and Ventilation: Cabinets with built-in fans or mesh doors for airflow are priced higher (Graybar). Brand and Build Quality: Premium brands like Dell, HP, APC, and IBM offer durable, secure racks at higher prices (eBay).

Vendor Options

Amazon: Offers small to medium wall-mounted cabinets with prices starting around $100 (Amazon). Newegg: Provides a wide range of sizes and configurations for both open-frame and enclosed racks (Newegg).eBay: Features new and used racks from top brands, often with competitive pricing (eBay). Graybar and Network Supply: Focus on professional-grade network cabinets for enterprise setups; pricing may require vendor contact or ZIP code for quotes (Graybar, Network Supply).

In summary, small wall-mounted cabinets are affordable for home or small office use, while large, enclosed floor-standing racks for data centers can exceed $2,000, with price influenced by size, features, and brand.
